AIPHONE®

Multi-Tenant

Features
- Quick and easy to install 2 Wires only!
- Service button to control an external device
- Door release powered by door station
- Also available for 2 to 4 apartments

AI55DA1AG

Colour Video Intercom

Features
- Quick and easy to install 2 Wires only!
- No handset to pick up
- Includes single N/O door release contact

AI55JKS1AD

Surface Mount Door Station

The LE-D is a surface mount, ABS plastic door station. It is weather resistant and mounts to a single gang electric box. The LE-D provides communication and call-in.

AI55LED

Chime Com2 System

Features
- Press-to-talk door answering with automatic shut-off
- Backlit CALL button
- Chime and voice volume controls
- Powered by AC transformer AI55PT1210N (not included)

AI55CCS1A

Hands-free Intercom

Features
- Open voice door answering with door release
- Automatically turns off in 20 seconds
- Battery or DC power supply

AI55C123LA

12V Power Supply

The PS-1225UL is a 12V DC, 2.5 Amp Power Supply. It is UL listed and can be used in both 110V AC and 240V AC environments by changing the AC power cord (110V cord is included with the unit).

AI55PS1225UL

Access Sentry System

Features
- Door release (N/O contact)
- Calling and 2-way communication
- Call tone & voice volume control
- Kit includes AI55LED
- Powered by AC transformer AI55PT1210N

AI55LEM1DLS

Stand Alone Access Keypad

Features
- AC-10S designed to match look of MK-DV and JF-DV
- Stand alone capability
- 12-digit backlit keypad
- 2 relay outputs (NO & NC)
- 100 Pin Code capacity
- 2 request-to-exit inputs
- 12 terminal wiring block for easy connections

Recessed
AI55AC10S

Flush Mount
AI55AC10F

Master Stations

Features
- Intermixable system with any number of master & subs
- Selective calling, monitoring and optional All Call
- 3, 5 and 10 call master
- Call tone and LED annunciation at master

AI55LEF3   AI55LEF5   AI55LEF10

Intercom Adaptor over IP

Features
- Cost-effective multi-PC based design
- Compatible with IE Series sub stations
- Works with standard wired and wireless network infrastructure
- Digital audio recording and playback capability via included software
- Relay output for remote release (N/O or N/C)

Altronix®

More than just power™

DC Wall Mount Power Supply

Features
- 6-15VDC selectable output.
- 6 amp supply current.
- Sixteen (16) fuse protected outputs.
- Output fuses are rated @ 3.5 amp.
- 115VAC 50/60Hz, 1.5 amp input.
- Short circuit and thermal overload protection.
- Lifetime Warranty.

AZ55615DCUL

Power Supply / Charger

Features
- 12VDC or 24VDC selectable output
- 4 amp @ 12VDC or 3 amp @ 24VDC of continuous supply current output
- 115VAC 60Hz, 1.45 amp input
- Short circuit and thermal overload protection
- AC fail, low battery and battery presence supervision
- Lifetime Warranty

AZ55AL400ULX

AC Wall Mount Power Supplies

Features
- 24VAC or 28VAC selectable output.
- 12.5 amp @ 24VAC (300VA) or 10 amp @ 28VAC (280VA) supply current.
- Output fuses are rated @ 3.5 amp.
- 115VAC 50/60Hz, 2.7 amp input.
- Lifetime Warranty.

AZ552483ULM
- Eight (8) fuse protected outputs.

AZ5524163ULM
- Sixteen (16) fuse protected outputs.

Panic Device Power Controller

Features
- Powers and controls two panic hardware devices with high in-rush current requirements
- Built-in timed door release and automatic door activation
- Built-in Fire alarm interface
- Built-in battery charger
- Lifetime Warranty

StrikeIt1

Power Supplies

AZ55SMP3

Features
- 6, 12 or 24VDC selectable output
- 2.5 amp continuous supply current

AZ55SMP5

Features
- 6, 12 or 24VDC selectable output
- 4 amp of continuous supply current

AZ55SMP7

Features
- 12VDC or 24VDC selectable output
- 6 amp of continuous supply current

AZ55SMP10

Features
- 12VDC or 24VDC selectable output
- 10 amp continuous supply current

All models have a short circuit and thermal overload protection plus a Lifetime Warranty

Annual Event Timer

Features
- 12 to 24 volts AC or DC operation
- Form "C" relay contacts are rated 10 amp @120VAC/28VDC
- Momentary and/or Latching Events
- 50 individually programmed daily/weekly events
- Block programming capacity can accommodate a total of 350 events per week
- 10 programmable Holiday dates
- "First man in" option
- Lifetime Warranty

AZ55PT724A

Multi-Function Timer

Features
- 12VDC or 24VDC selectable operation
- Quick and extremely accurate time range adjustment from 1 sec. to 60 min
- Form "C" relay
- Triggers via positive DC (+) voltage
- Selectable relay activation at the start or end of the timing cycle
- One (1) second momentary relay activation at the end of the timing cycle (eliminates the need to use two (2) timers for this function)
- Repeat (pulser/flasher) mode.
- Lifetime Warranty

AZ556062

AD AMERICAN DYNAMICS™

Embedded Digital Video Recorder

AG55TVRVS

Features
- 4 video inputs and 1 audio input. Each channel has independent, H.264 hardware compression and real time display
- CIF/2CIF/4CIF resolution
- Built-in web server, TVR-VS can be viewed and configured via Internet Explorer
- Supports composite video output, spot video output and VGA video output
- Supports multi-level user management

Super High Resolution Day / Night Colour Camera

AG55CPAKIWSHR2

Features
- 540 TVL model with electronic Day/Night
- 24 VAC/12 VDC NTSC
- Superior low-light performance
- Auto white balance (AWB), automatic gain control (AGC), automatic electronic shutter (AES), and backlight compensation (BLC)
- 2.8-12mm Auto Iris Lens included
- Wall support bracket included

Discover™ Series Vandal Proof Mini-Dome

Features
- High impact vandal resistant housing that retains shape even after forceful impact
- Snap-on bubble liner for an extra level of covertness
- Advanced pivoting axis provides greater viewing flexibility
- Three quality auto iris lens options for better image quality and improved low light performance
- High impact vandal resistant polycarbonate bubbles (clear and tinted)
- Multiple camera options, including WDR model with latest Pixim® technology
- Night-Saver mode for extreme low light conditions
- Easy installation with eight mounting options

Wall Support

AMERICAN SENSORS™

Photoelectric Smoke Detector

NA55ASD200

Features
• 12/24 volt DC hardwire with built-in "NO/NC form C" Relay
• Automatic alarm reset feature
• Alarm source indicator
• Interconnectable up to 12 units
• Alarm, power test feature and LEDs
• 10 year limited warranty

Carbon Monoxide Alarm

NA55CO8RD

Features
• 12/24 volt DC hardwire with relay
• 3 digital display modes
• Low consumption, 30 micro Amps
• Approved to work with alarm control panels
• 10 year limited warranty

Natural Gas Alarm

NA55NG401A

Features
• 12/24 volt DC hardwire with auxiliary relay
• Easy installation mounting hardware included
• Instant test feature
• Set to alarm before gas level reaches 25% of lower explosive level
• Self diagnosing circuitry

Propane Gas Alarm

NA55LP401A

Features
• 12/24 volt DC hardwire with auxiliary relay
• Easy installation mounting hardware included
• Instant test feature
• Set to alarm before gas level reaches 25% of lower explosive level
• Self diagnosing circuitry

Smoke Detector

ESA5011

Features
• 120 Volt hardwire with built-in "NO/NC Form C" Relay
• Automatic alarm reset feature
• Alarm source indicator
• Interconnectable up to 18 units (12 smoke alarms and 6 compatible devices combined)
• Ionization Technology
• Alarm and power test feature and LEDs
• Tamper Resistant "Lock-it" key mounting hardware included
• 10 Year Limited Warranty

Auxiliary Relay

NA55CB100

Features
• Unique design allows "field selectable" for use with smoke signal only, CO signal only, or combined
• Interconnect smoke and or carbon monoxide alarms to auxiliary devices (i.e., fire panels, shut-off valves, exhaust systems, etc.)
• This module is also interconnectable with the Dicon smoke alarms 570L, 570LR, 570LC or 370LB

Alarm Accessories

Emergency Button

CW5578301 / CW5578301F

Features
• Emergency button
• Colour : white
• N.O./ N.C.
• 2 models
  English or French

Piezo

CW55PML

Features
• Piezo
• Voltage : 12VDC
• Can be installed on a wall plate

Siren

CW55SS14

Features
• 15 Watts siren
• Voltage : 12VDC
• Horn : 4 inches
• Colour : white
• 110 ~ 115 dB

Siren

CW55SS15

Features
• 15 Watts siren
• Voltage : 12VDC
• Horn : 6 inches
• Colour : white
• 110 ~ 115 dB

Siren

CW55SS30

Features
• 30 Watts siren
• Voltage : 12VDC
• Horn : 8 inches
• Colour : white
• 120 ~ 125 dB

Decorative Siren

CW55SS36

Features
• 15 Watts siren
• Voltage : 12VDC
• Colour : white
• 110 dB

High performance colour camera

Lens not included

FN55CT2660N

Features
• Advanced DSP 1/3" Sony CCD
• Stable high performance video picture
• Flickerless mode switch for 50/60Hz
• Extremely low light level at 0.01 Lux
• Easy backfocus adjustment
• Isolated switching power 24VAC / 12VDC
• 420 TVL Resolution
• Auto iris DC drive or video

Supreme day night IR camera

Lens not included

FN55CT8881HQICR

Features
• High Definition Image with 1/3" SONY Advanced CCD
• Produces Crisp Video images of 540 TVL colour, 600 TVL Monochrome
• Excellent sensitivity of 0.1 Lux F1.2, 10 IRE colour mode, 0.01 Lux F1.2, 10 IRE B/W mode
• Colour / B&W switchable by ICR filter
• Flickerless switch for 50/60Hz Frequency
• Digital Noise Ratio reaches more than 52dB
• Easy backfocus adjustment
• Isolated switching power 24Vac / 12Vdc

Mini camera PC board

FN55CX42HP

Features
• High definition image with 1/3" Panasonic ADV CCD
• Produces crisp colour video images of 420 TVL
• Excellent sensitivity of 0.1 Lux
• Digital noise reaches more than 48 dB
• Pinhole lens (3.7mm flat)
• Bracket included

Colour camera with colour killer

FN55ATBC601
FN55ATBC602

Features
• High definition image with 1/3" Sony CCD
• Produces crisp colour video picture of 420 TVL (601), 480 TVL (602)
• Excellent sensitivity of 0.5 Lux (601), 0.8 Lux (602)
• Auto backlight compensation
• Digital noise ratio reaches more than 48dB
• Power 12Vdc

Truer than life CCTV

Day / Night Bullet Camera

FN55A6442DN

Features
- Digital Signal Processing (DSP)
- High Sensitivity Colour & B/W CCD
- Horizontal Resolution of 380 TV Lines in colour and B/W
- Minimum Illumination of 0.1 Lux
- Automatic switchover from colour to monochrome under low light
- Lens option are interchangable 3.6mm built in or (4mm, 6mm, 8mm & 12mm optional)
- Comes with sunshield
- Non-condensing coated glass
- Tamper-proof glass
- Bracket included

IR Night Vision Bullet Camera

FN55ICXIR38035
FN55ICXIR80035

Features
- IP68 Rated Waterproof Housing
- Digital Signal Processing
- Horizontal Resolution : IR380 = 420 TV Lines, IR800 = 540 TV Lines
- Built in standard 4mm lens or (6mm, 8mm & 12mm optional)
- 35 units of LEDs
- Effective distance of 35M indoor / outdoor range
- Ideal camera for all day and night time surveillance.
- Non-condensing coated glass
- Bracket included

Weatherproof Day / Night Colour Camera

FN55ATCB420VE359
FN55ATCB420VE922
FN55ATCB540VE359
FN55ATCB540VE922

Features
- Rear external lens adjustment
- Wires hidden in support
- Choice of varifocal lens (3.5-9mm or 9-22mm)
- Day / Night
- 420 or 540 TV lines
- Bracket included

Day Night, IR Cut Bullet Camera

FN55ICX4VIR720
FN55ICX4VIR800
FN55ICX9VIR720
FN55ICX9VIR800

Features
- IP68 Rated waterproof housing
- Aesthetically appealing with concealed wiring in the back of camera body for easy installation
- Lens is adjustable from exterior of housing
- Horizontal resolution of 420 (VIR720) or 540 (VIR800) TV lines
- Build in varifocal F1.8 lens 4~9mm/ 9~22mm
- Effective distance of up to 60 M indoor / outdoor
- Ideal camera for all day and night surveillance
- Non-condensing coated glass
- IR cut built in mechanism
- Aluminum bracket included

Remote Keyboard

Features	FN55CK105
• Input Voltage	DC12V
• Power Consumption	10W
• Joystick Control	Pan, Tilt, Zoom
• Protocol	Pelco-D, Pelco-P & More
• Remote Control	RS-232 / RS-485
• Baud Rate	1200 ~ 38400
• LCD Display	20 x 2 Characters
• Integration	Cascading connections
• Auto Surveillance	Position, Tour, Auto Pan
• Wiring Box	Yes
• Operating Temperature	0 ℃ ~ 40 ℃
• Operating Humidity	<95%
• Dimensions	380(W) x 180(H) x 95(D)
• Weight	1.5 Kg

FN55CK105

Remote Keyboard

FN55ATMPTK3

Model	FN55ATMPTK3
• In/Output	RS485
• Joystick Control	Pan, Tilt & Zoom
• Baud rate	2400, 4800,9600 and 19200
• Protocols	Pelco-D, Pelco-P
• Remote control	1.2Km - RS-232 / RS-485
• Power Consumption	9~12 VCC, 0.5A, 2.5 Watts
• Dimensions	119 (L) x 180 (H) x 98 (P) mm
• Weight	630 g.
• Operation Temperature	0 ℃ to 50 ℃
• Storage Humidity	5 to 90 % non condensing

Anti-Grip Design, Tri-Axis Dome

FN55DC420DN
FN55DC480DN

Features
• Ultra Compact and light weight
• Anti-Grip with Tri-Axis Bracket
• With 1/3" CCDs
• Day & Night
• Resolution 420 & 480 lines
• Fix lens

Anti-grip Design, Tri-Axis Vandal Proof Dome

FN55VD420DNR
FN55VD525DNR

Features
• Ultra Compact and light weight
• Anti-Grip with Tri-Axis Bracket
• IP66 with Waterproof Housing
• With 1/3" CCDs
• Vandal proof design
• Day & Night
• Fix lens

Tri-Axis Vandal Resistant Day & Night Dome

FN55VD3V420DNR
FN55VD9V420DN
FN55VD3V540SHDNR
FN55VD9V525DN

Features
• Compact & Vandal Resistant Construction & Anti-grip design
• Suitable for indoor and outdoor (optional wall mount)
• DSP controls for BLC, white balance, and gain control.
• IP 66 Rated
• Tamper proof screw
• Integration of varifocal DC iris lens 4-9mm or 9-22mm
• Resolution of 420 or 540 lines

Tri-Axis Vandal Dome + Day night

FN55VD3VIR420D
FN55VD9VIR420SP
FN55VD3VIR540SH
FN55VD9VIR525SH

Features
• Compact & Vandal Resistant Construction
• Suitable for indoor and outdoor (optional wall mount)
• DSP controls for BLC, white balance, and gain control.
• IP 66 Rated
• Tamper proof screws
• Integration of varifocal DC iris lens 4-9mm or 9-22mm
• Resolution of 420 & 540 lines

Day & Night Vandal Dome, with Varifocal Lens

FN55CDV26VD580
FN55CDV3VD580

Features
• Unique design with waterproof housing IP66 rated
• 540 TVL colour
• Fitted with SONY CCD
• Day & Night function
• Integrated Varifocal Lens with 3.7~12 or 2.6~6 mm
• Burglarproof screw

Day / Night Dome Colour Camera

FN55ATIRD420VA
FN55ATIRD540VA

Features
• External adjustment for
  4~9mm varifocal lens
• Day / Night
• 420 or 540 TV lines
• Led's
• Vandal proof design

TFT Active Matrix LCD Display

| 17" LCD Colour Monitor | 19" LCD Colour Monitor |

CW55TFT17

CW55TFT19

75 Ω / BNC Interface

? Did You Know

In the case of a colour screen three different colour point (red, green, blue) are needed to make a pixel, and each point on an active matrix screen has a transistor associated with it. So a TFT screen is controlled by hundreds of thousands of transistors.

TFT stands for Thin Film Transistor

Features
• Brightness: 350 cd/m^2 ~ 500 cd/m^2
• Life: 50 000 hours
• View angle:
     Horizontal - 170°
     Vertical - 170°
• Line frequency: 30~90 kHz
• Field frequency: 60~75 Hz
• Maximum resolution for 17" & 19" : 1280 x 1024
• Video model: NTSC-M
• Input interface: DB15, VGA, AV, S-Video, 75Ω RCA
     (RCA/BNC Adapter required)

Power Adapter
• Input: 100 ~ 240 Vca   50/60Hz
• Output: 12 VDC @ 4A
• Consumption: ≤ 40W

Accessories
• AC Adapter
• Power line
• VGA signal line

OSD (on-screen display)
• Language: English, Korean, Japanese, German, French,
          Spanish & Russian

EP Series High Speed Colour Dome Camera

Features
- 480 TVLines of horizontal resolution
- 1/4" Sony exview HAD CCD, 18X optical zoom (12X digital zoom) f=4.1mm (wide) - 73.8mm (tele) F1.4-3.0
- High sensitivity of 1.0 Lux (typical) F1.4 50IRE
- 80 presets with editable time
- Auto running: allows the dome to return to any preset, sequence, pattern, panning automatically after a period of inactivity
- 2 Pannings with up to 355 degrees scan range
- 2 Sequences, each one with up to 32 presets, dwell time can be set
- 2 pattern tours, each one with up to 180 seconds of recording
- Communication interface: RS485 / RS422
- Supports multiple Protocols: Pelco P/D, VCL, Vicon, Molynix, Diamond, Kalatel, Ernitec, Lilin & Panasonic
- Black liner for discreet surveillance
- Built in 1500W lightning proof and surge proof
- 24VAC

FN55EPQ201A

EP Series High Speed Day/Night Dome Camera

FN55EPQ908A

Features
- Day night + ICR, 480 TVLines of horizontal resolution
- 1/4" Sony exview HAD CCD, 26X optical zoom (12X digital zoom) f=3.5mm (wide) - 91.0mm (tele) F1.6-3.8
- High sensitivity of 1 Lux (typical) F1.6 50IRE
- 7 alarm inputs, 2 outputs
- 220 presets with editable time
- 8 programmable zones / 8 privacy masking zones
- Auto running: allows the dome to return to any preset, sequence, pattern, panning automaticlly after a period of inactivity
- 4 Pannings with up to 355 degrees scan range
- 4 Sequences, each one with up to 32 presets, dwell time can be set
- 4 pattern tours, each one with up to 180 seconds of recording
- Communication interface: RS485 / RS422
- Supports multiple Protocols: Pelco P/D, Vicon, Molynix, Diamond, Kalatel, Ernitec, Lilin & Panasonic
- Black liner for discreet surveillance
- Built in 1500W lightning proof and surge proof
- 24VAC

EP Series High Speed Day/Night Built-in Dome Camera

Features
- Same as EPQ908A but including flush mount for indoor housing use
- Bubble: standard: clear cover with black inserts
- Upper housing colour: Black
- Construction: Hard plastic for the upper housing, acrylic bubble
- Weight (includes PTZ mechanism module): 2.5 kgs

Mounting ears for ceiling built-in upper housing

ASSA ABLOY

Understanding the Changing World of Security and Safety

ASSA ABLOY DOOR SECURITY SOLUTIONS CANADA BRANDS:
ADAMS RITE | ASSA | CORBIN RUSSWIN | EFF EFF | FLEMING BARON | FOLGER ADAM | HES
MARKAR | MCKINNEY | NORTON | RIXSON | SARGENT | SECURITRON | YALE

The Certified Integrator (CI) program provides hands-on training for security systems integrators and network administrators. Not only does this training familiarize certified integrators candidates on product features and applications, it also gives them valuable experience installing, commissioning and troublehooting the products in a real world environment. This category extends to end-users who install and manage their own systems and third-party lock installers.

The global leader in door opening solutions

ADAMS RITE 7400 SERIES
- Over 2000lbs. of holding force
- Opens electrically with 30lbs. of preload
- Single solenoid operates on 12, 16, or 24 volt AC/DC power
- Exceeds ANSI/BHMA Grade 1 standards
- Five year limited warranty

ADAMS RITE e-Force 150
- Battery-operated key pad control for deadbolts
- Surface mounted with concealed fasteners
- Free-wheeling lever with clutch to prevent vandalism
- Field selectable handing
- Die cast housing and lever

HES RF5010/RF5210 SERIES
- Integrated proximity reader
- Grade 1 electric strike
- One seamless unit
- Weigand output to an existing system
- Lifetime warranty

SECURITRON VM600
- 600 Lbs. holding force
- UL listed
- Optional bond sensor and DPS switch available
- Easy mount adjustable bracket
- Field selectable - 12/24 VDC
- Individually tested for holding force

SECURITRON VISTA 1200 MAGLOCK
- Individually tested for holding force
- Easy mount adjustable bracket
- Instant release (no residual magnetism)
- Armature positions sensing available
- Door position sensing available

BPS-12/24-1 DUAL VOLTAGE
- Field selectable 12 or 24VDC via clearly marked toggle switch
- Supplies 1 full AMP continuous current output
- UL class 2 listed
- LED indication (AC & DC) showing power supply status
- SPDT AC monitoring output allows for remote monitoring of the power supply 110V AC input

FOLGER ADAM
ELECTRIC DOOR CONTROLS
ASSA ABLOY

FOLGER ADAM 310-4(S)
- For squarebolt style latchbolts like Corbin Russwin ED4200S, ED5200S and ED5200SA
- UL 10C, 3 hour fire-rated (fail secure only)
- Tamper resistant, heavy-duty construction
- ANSI/BHMA A156.31, Grade 1
- Five year limited warranty

hes
ASSA ABLOY

HES 5900 SERIES
- Engineered to be the fastest, easiest installation on the market
- Maintains standard ANSI frame prep
- Requires no modification to the frame or dust box
- Accommodates door swag with patented vertical adjustibility

hes
ASSA ABLOY

HES 1006 SERIES
- Can accommodate virtualy every type of lockset on the market
- Grade 1 electric strike
- Strongest, most versatile electric strike
- UL 10C, 3 hour fire-rated (fail secure only)
- Five year limited warranty

SECURITRON
ASSA ABLOY

M62FG-SASM
- 1200 lbs. holding force weatherproof Magnalock with automatic dual voltage
- Used to control excessive impact between the strike and Magnalock in gate applications
- Patented instant release circuit - no residual magnetism
- MagnaCare Lifetime Replacement Warranty

SECURITRON
ASSA ABLOY

FLEX-MOUNT GATE LOCK BRACKET KITS
- Intuitive set of mounting brackets designed exclusively for use with the 1200 lb M62FG
- Pre-configured kits include all lock mounting hardware and post shims
- Post brackets are pre-drilled, lock and strike brackets are pre-tapped

SECURITRON
ASSA ABLOY

SECURITRON GL1
- 2000 Lbs. holding force
- Exterior or interior use
- Easy to install swivel type strike assembly
- Accommodates door sag and misalignment
- Field selectable - 12/24 VDC

Corbin Russwin
ASSA ABLOY

CORBIN RUSSWIN CL3800
• Ideal lever lockset for standard commercial applications
• Grade 2 standard-duty lever lockset
• Patented lever release for vandal resistance
• Independent lever return springs
• Seven year limited warranty

Yale
YALE 2100 SERIES
• Certified ANSI/BHMA A156.3 Grade 1 performance of the 2100 Series unmatched in the security industry
• Deadlocking pullman latchbolt positively engages roller strikes
• Designed for wide stile doors
• Pairs of doors (mullion required on fire-rated applications)

Norton
ASSA ABLOY

NORTON 7500 INSTITUTIONAL
• Multi-size springs 1through 6
• Non-handed
• UL10C compliant for positive pressure
• Cast aluminum body
• Backcheck positioning valve
• Rack-and-pinion design
• Ten year limited warranty
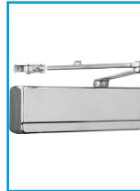

SARGENT
ASSA ABLOY

SARGENT 1431 CLOSER
• Adjustable spring power allows sizing to a range of 3 through 6
• Non-handed
• Backcheck standard
• Versatile mounting applications permit standard, top jamb, parallel and track installations
• Closer bodies are non-handed
• ANSI/BHMA Grade 1 (A156.4)
• Ten year warranty

SARGENT 7 LINE
• Best overall lock in the Grade 2 class
• Cycle Test: Exceeds 2-1/2 times ANSI/BHMA A156.2 Grade 2 cycle requirements
• Standard duty lock designed for interior and exterior applications in public buildings
• Non-handed design for ease of installation
• Five year limited warranty

SARGENT 10 LINE
• Heavy duty cylindrical key-in-lever handle
• Cycle Test: Exceeds 5 times A156.2 Grade 1 requirements
• Installs in 1 minute or less
• At over 4 million cycles, 10 Line beats the competitor by 30%
• Heavy duty lever spring
• Seven year limited warranty- no service required to maintain warranty

DOOR CONTROLS

Illuminated exit switch

Features
• Illuminated exit switch is high visibility
• Industrial grade stainless steel faceplate.
• SPDT switch rated 10 amps @ 30 VDC
• High visibility 2" square button
• 12 - 28V operation with incandescent bulb
• Fast and easy to install

CM34CM30E

Illuminated exit switch

Features
• Illuminated exit switch is high visibility
• Industrial grade stainless steel faceplate.
• SPDT switch rated 10 amps @ 30 VDC
• High visibility 2" square button
• 12 - 28V operation with incandescent bulb
• Fast and easy to install

CM34CM30H

Light-duty push switch

Features
• Mounts in door jamb or surface box
• 1" Red or black button requires minimal actuation force
• Durable stainless steel construction
• ADA compliant
• Attractive low profile design
• UL/CSA approved switch rated 15 amps@ 30 VDC
• Various logos, messages & languages

CM34CM2506

All-Active Narrow Switch

• Mounts in aluminum jamb or in surface boxes
• Durable stainless steel or solid brass construction
• All-active design requires minimal actuation force
• UL/CSA approved N.O. Switch, rated 3 amps @ 30VAC

CM34CM252

Mushroom push switch

Features
• Large, easy to operate red button
• 1 5/8" (40 mm) diameter
• Free-spinning, heavy-duty button cannot be unscrewed
• Stainless Steel, one gang faceplate
• UL/CSA approved switch, rated 10 amps @ 30 VDC
• Colour coded 18 AWG spade connections
• Fast and easy to install

CM34CM420E

Piezo Push Switches

Features
• Single gang faceplate
• No moving parts
• Solid state output (n/o)
• No power required to operate
• One piece aluminum construction
• Virtually impervious to vandalism
• Life time warranty

CM34CM9700H

Flush Mount Push Switch

Features
• Single gang faceplate
• Green illumination
• Fail safe/ fail secure SELECTABLE
• N/O+ N/C outputs
• Integrated 40 second adjustable timer
• 12/24 VDC
• Rugged stainless steel faceplate
• PUSH TO OPEN model
• Life time warranty

CM34CM96006

Flush Mount Push Switch

Features
• Single gang faceplate
• Green illumination
• Fail safe/ fail secure SELECTABLE
• N/O+ N/C outputs
• Integrated 40 second adjustable timer
• 12/24 VDC
• Rugged stainless steel faceplates
• POUSSEZ POUR SORTIR model
• Life time warranty

DOOR CONTROLS

Keyed control switch

Features
- Wall, pipe or pedestal mount
- Accepts standard mortise cylinders, 1″ – 1-1/4″
- Heavy duty 1/4″ thick aluminum plate
- Locators prevent cylinder from spinning
- Indoor or outdoor applications
- Brushed aluminum finish
- Fast & easy to install

CM34CM1000

Keyed control switch with LED indicators

Features
- Wall, pipe or pedestal mount
- Accepts standard mortise cylinders, 1″ – 1-1/4″
- Heavy duty 1/4″ thick aluminum plate
- Locators prevent cylinder from spinning
- Indoor or outdoor applications
- LED indicators
- Brushed aluminum finish
- Fast & easy to install

CM34CM1100

Emergency blue pull station

Features
- Blue colour
- English/ French versions
- Standard single gang mount
- N/C switch 1 A @ 30 VDC

CM34CM701BE

Emergency blue pull station

Features
- Blue colour
- English/ French versions
- Standard single gang mount
- Both N/O and N/C switches 1 A @ 30 VDC

CM34CM703BE

Sure-Wave™ Touchless switch

Features
- Adjustable operating range 1″-26″
- Adjustable time delay 1–5 seconds
- Fail-safe/non-fail-safe selectable
- Fully shielded against EMI, line voltage spikes and noise
- 12/24 VAC/DC operation
- Heavy duty 5 amp relay, for use with all automatic operators and electrified locks
- ROHScompliant

CM34CM3242

Stand-alone proximity reader

Features
- Up to 999 users
- Reader and controller may be up to 200 ft (70 metres) apart
- Operates with prox cards
- Request-to-exit input (n/o)
- No software or handheld programmers needed
- Door open time 1-180 seconds or latching
- Form c (n/o + n/c) relay, 5 amps
- 12/24 AC/DC operation

CM55CV600

Compact programmable 7 day timer

Features
- Microprocessor control
- 8 Daily & weekly schedules
- Extremely compact size
- Memory backup
- Easy mounting
- 16 Amp contacts
- First man in option

CM55CX24712

Switching Network & Bi-Directional Sequencer

Features
- New! Bi-directional sequencing mode
- 3 Adjustable delays, up to 30 seconds maximum
- Easy potentiometer adjustment
- Led'sfor visual relay confirmation
- 12 To 24 V AC/DC
- SPDT contacts rated at 3 amps @ 30VDC
- Input for connections to phone entry system

STAND-ALONE KEYPADS

CV55C2R100US | Digital stand-alone keypad

- Fluorescent keypad keys
- Stainless steel faceplate
- Mounts on a singlegang box
- 150 user codes available
- 3 to 6 digit user codes
- Sounder Feedback: Beeps can be activated or deactivated
- Operates up to three outputs (2 relays & 1 open-collector) and can be used to trigger a door strike, an electromagnetic door lock, or any other relay-activated device

CV55DGA | Back-lit keypad with controller built-in

- 100 User Codes of 4 to 6 digits
- Cast aluminium
- Surface mount
- 2 relays
- Audible and visual feedback
- Power: 12/48Vdc or 12/24Vac
- Consumption: 25 to 80mA.

NEW

CV55PRO100EINT | Keypad with controller built-in

- Illuminated stainless steel keypad
- 100 user codes (4 to 5 digits)
- 2 form C outputs (8A/250V), timed (1 to 99 sec.) or latched
- Audible and visual feedback
- Request-to-exit input
- Power requirements: 12/24 Vac or 12/48 Vdc

CV55DGIDWUS | Wiegand fingerprint reader

- Stores up to 350 Fingerprints
- 26, 30 or 44-bit Wiegand or stand-alone output
- Self cleaning sensor area (auto cleaning)
- 3 LED's to indicate the sweeping direction
- Support firmware update
- Tamper switch
- Power requirements: 12V ac/dc

CV55KCIEN ou CV55KCIENSBP
Illuminated keypad with controller built-in

- Illuminated stainless steel keypad
- 100 user codes (4 to 6 digits)
- 2 form C outputs (8A/250V), timed (1 to 99 sec.) or latched
- Audible feedback buttons
- Request-to-exit input
- Potted electronics
- Power requirements: 12/24 Vac or 12/48 Vdc
- Available with call button for request-to-enter: CV55KCIEN

High resistance to vandalism

CV55PBO400RN
Retrofit electromagnetic door handle

ELECTROMAGNETIC DOOR HANDLE

- 400kg (880lbs) Holding Force
- Complete Aluminium housing
- Power requirements: 12/24Vdc
- Current Draw: 560mA @ 12Vdc or 270mA @ 24Vdc
- 40 cm (H) x 12,6 cm (W) x 6,8 cm (D) (15,75 in x 5 in x 2,7 in)

NEW

CV55DTRR1434 | Active Tag Receiver

- Voltage: 12-30Vdc
- Current: 40mA
- Adjustable range: Up to 15M (50 ft)
- LED: 1 green, 1 red
- 26 Bit Wiegand Output
- Tags in field: 20
- Dimensions: 90 x 60 x 22mm (3.5 x 2.4 x .9 in)

CV55DTXT0434 | Active Tag Transmitter (No Button)
CV55DTXT1434 | 1-Button Transmitter

- Supply: One 3V Lithium battery CR2032
- DTXT0434: Transmits continually when in motion
- DTXT1434: Transmits on demand or continually when in motion

BUILT-IN MOTION SENSOR

S7TR2641E4 | 4-Channel Transmitter

- Metallic transmitter
- Range: 325 ft (100 m)
- One 3V lithium battery (CR2032)
- Also available with HID key tag: S7TR2641E4T

NEW

Also Available with Key Tag

CV552641AM2... | 2-Channel Mini Transmitters

- Heavy-duty construction
- Elegant & easy to carry
- Available in: Dark Gray, Red, Blue and Burgundy
- 60 x 36 x 16mm (2.35 x 1.4 x 0.6in)
- Two lithium batteries (CR2016)
- Optional CDVI or HID key tag

Also Available with Key Tag

CV552641AM2.B (blue)
CV552641AM2.R (red)
CV552641AM2.N (black)

WIRELESS TECHNOLOGY THAT REALLY WORKS

CV55SELWR433 | Wiegand Wireless Receiver
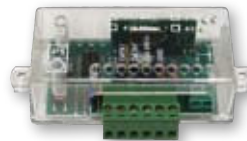

- 26-bit Wiegand output
- Power: 12 or 24V (AC or DC)
- Dimensions: 105 x 45 x 28mm (4.3 x 1.75 x 1.1in)
- Compatible with Centaur and any 26 bit Wiegand-capable systems

CV552641I | 2-Relay Stand-Alone Receiver

- Up to 85 transmitter keys
- 1 NO relay + 1 NO/NC relay
- Standard pulse output
- Voltage: 12/24Vac/dc
- Dimensions: 105 x 45 x 28mm (4.3 x 1.75 x 1.1in)
- Also available with pulse, step or delayed relay operating mode: **SEL2641R433IP**

CV552641Z4 | 4-Relay Stand-Alone Receiver

- Up to 85 transmitter keys
- 2 NO relay + 2 NO/NC relay
- Standard pulse output, Relay number 4 can be setup to latched output
- Power requirements: 12/24Vac/dc

CV552641K8PM | Multi-user Receiver

- 800 2-channels transmitters + 7 master transmitters
- Programming through a master transmitter S2TR2641E2M (included) or with PC (optional) software kit (SEL2641-KITP8)
- Voltage: 12/24Vac/dc
- Also available for 1600 transmitters: **SEL2641R433-K16P**

Battery Powered Door Mount Exit Alarm

Features
• Low-cost, self-contained alarm with piezo horn that sounds to warn of unauthorized use of a door
• Surface door mount (factory standard)
• Tapered cover allows for installation on narrow stile doors 2" minimum
• Alarm can only be silenced by proper control key
• Improved electronic circuits for longer battery life
• Extended bypass, now a standard feature, allows alarm to remain bypassed when door is open and automatically rearms upon door closing

Exit Control Hardware

EMERGENCY EXIT ONLY
ALARM WILL SOUND
PUSH HERE

English
DX19230DE

French
DX19230D

Features
• Single point, 1" throw dead bolt
• Saw resistant dead bolt
• 100 decibel alarm, powered by 9-volt battery (included)
• Accepts 5-pin through 7-pin standard and interchangeable core rim cylinders
• Durable steel plate with photo luminescent

sign absorbs light to then "glow in the dark" when lights are dimmed
• Non-handed
• Locking and unlocking the dead bolt always arms and disarms the alarm
• Resetting the alarm can only be accomplished with a control key

Rim Exit Device

Features
• Stainless steel, 3/4" deadlocking Pullman-type latch bolt
• Non-handed
• Cylinder dogging
• Heavy-duty angled end cap

• Heavy-duty ribbed aluminum rail extrusion
• High impact ABS and anodized surfaces
• Withstands over 1400 pounds of

static pull force for greater security
• Modular design accepts a variety of outside trims and functions

TeleAlarm®

Dementia Alarm System

LE9

IS-76B

It's a well-known fact that many geriatric patients in nursing homes, hospitals and clinics are quite agile physically but it's their mental state that is deteriorating; often those patients wander off premises and quickly become disoriented and harm befalls them.

The Dementia Alarm System promptly notifies that a patient is off premises and assistance is rapidly discharged.
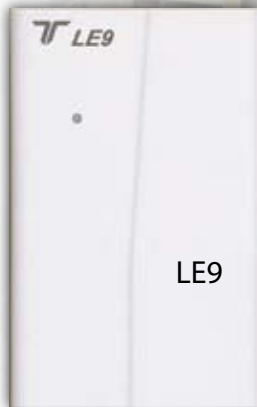

The kit includes
• IS-76A   Wall antenna
• IS-76B   Antenna module
• LE9   Relay module

Telealarm accessories

S-37L	Transmitter bracelet
	Replacement strap
IS-76A	Extra wall antenna

DM SERIES HEAVY-DUTY MORTISE LOCKS

DM series heavy-duty mortise locks are designed for rugged high traffic institutional or commercial applications. Available in a wide variety of functions, trim styles and finishes. DM series mortise locks provide a clean architectural appearance and offer maximum flexibility.

DM45R-SS26S

Features
- Adjustable for doors bevelled from 1/8" (3mm) in 2" (51mm) to flat
- Field reversible handing
- Standard 1 3/4" (45mm) door thickness
- Backset 2 3/4" (70mm)
- Conforms to door edge prep 86
- Stainless steel deadbolt with hardened steel pins and 1" (25mm) throw
- Stainless steel latchbolt with 3/4" (18mm) throw
- Rocker type chrome plated brass toggle
- Schlage "C", 6-pin drilled for CMK 1 1/8" (29mm) mortise cylinder with cloverleaf cam
- Non-handed flat strike
- Corrosion resistant steel construction lock case
- Conforms to ANSI A156.13 2002, Series 1000, Grade 1
- c UL us listed "A" label (3 hours) for use on single or double fire doors
- 5 year limited warranty

INTERCONNECTED SERIES

The Dorex Interconnected series locksets are recommended for use in multi-unit housing or standard commercial applications offering the security of a deadbolt with the convenience of a leverset. Simultaneous retraction of both latch and deadbolt provides panic-proof exiting. Dorex brand products are recognized for value while delivering leading edge technology.

Features
- Field reversible handing
- For door thickness of 1 3/8" (35mm) to 1 3/4" (44mm)
- Standard backset 2 3/4" (70mm); optional 2 3/8" (60mm)
- Available in various escutcheon and lever styles
- Solid brass cylinder with standard Schlage "C" keyway
- Interlocking enables simultaneous retraction of latchbolt and deadbolt by rotation of inside lever
- Easy installation fits 160 or 161 door prep
- Conforms to ANSI A156.12, Grade 2
- Meets ADA requirements
- 3-hour cUL fire rating
- 2 year mechanical limited warranty

Wall mount kit for ELK-SL1

Features
- Allows mounting of ELK-SL1 directly to wall surfaces with aesthetically pleasing cover

EK55WK1

Compact 12 Volt DC Relay

Features
- "Snap Apart" packs of 12
- Relay Contacts: 7A @ 28Vdc or 10A @ 125Vac
- Includes foam mounting tape

EK5591212

12/24 Volt DC Relay

Features
- "Snap Apart" packs of 6
- Relay Contacts: 7A @ 28Vdc or 10A @ 125Vac
- High quality large cross head screw terminal
- Includes foam mounting tape

EK55912B6

Sensitive 12/24 Volt DC Relay

Features
- "Snap Apart" packs of 4
- Relay Contacts: 7A @ 28Vdc or 10A @ 125Vac
- Trigger current: 1.2mA @ 5~24 VDC
- Includes foam mounting tape

EK559244

Doorbell & Telephone Ring Detector

Features
- Includes: (2) doorbell sensors and (1) phone sensor
- Max doorbell input: 24 Volts AC nominal
- Max output: 40mA @ 12 Volts DC

EK55930

Surge Suppressors

Features
- Single telephone line & low voltage
- Protects 1 incoming phone line and AC input
- Max AC input voltage: 24 VAC
- Convenient test points for lineman's test set

EK55950

Double Sided Foam Tape

Features
- Permanent rubber adhesive
- **130** individual pieces
- Piece size: 1/2" x 1-1/2" x 1/4" thick

EK55999

Battery LifeTester™

Features
- 3 digit display
- Coated clips to connect to battery
- Powered by the battery under test and automatically warns when the battery voltage is too low for testing
- Includes hard shell, protective carrying case

EK55BLT

Project Box

Features
- General purpose, paintable box for housing wire splices, relay modules, etc.
- Mounts to a single gang electrical box
- Mounting hardware included
- Colour: White

EK55PB1

Water Shutoff Valve

Features
- Operates from 12 Volts DC
- Minimum recommended power supply: 12VDC, 1 Amp

Valve
- Stainless Steel Grade 316
- 1" NPT threaded pipe connections

950 Swing Door Operator Kit With Articulating Arm

FC55F950PL "Pull"

FC55F950PH "Push"

Features
• Electro-mechanical operator with return spring
• Mechanical limit switch
• Plastic housing
• Electronic "Anti-Crush" device for both opening and closing
• Self learning of open & close positions

Swing gate operator

F400-1

Features
• Electro-hydraulic operator
• "Anti-crush" safety ensured by adjustable by-pass valves and protection system
• CSA approved
• Physical stops by others are required

Kit includes
• 2 electro-hydraulic operators
• 2 manual release keys
• 2 capacitors

Installation and mounting accessories
• 455D control board
• Enclosure type L
• Safe beam photocell pair

Internal stop for 400
490042 (2 needed)

Bollard with foundation pit & heater

Features
• Electro-hydraulic bollard
• Built in manual release key FAAC CITY 10,000 4 sec. 600mm
• Impact resistance: 15,000 Joule
• Break-in resistance: 120,000 Joule
• Pit Dimensions: 560 x 560 x 1020 mm

F275H600

Kit Includes
• Hydraulic bollard
• Foundation pit with heater
• Foundation pit cover
- 10 Meters of pre-wired cable

Articulated arm automated system

Electro-mechanical automated system with articulated arm for swing leaf gates with 2.5 m max leaf length
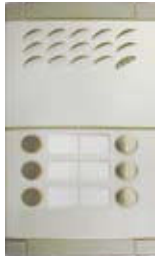

Features
• Compact elegant design
• Versatile simple installation
• Anti-burglary non-reversing facility
• Adjustable speed
• Anti-wind function

Video Transceiver	Video Transceiver	Video Transceiver Kit

FK55TTP111VT

FK55TTP111VL

FK55TTP111VK

Features
- BNC male to 2 pin terminal block
- Twisted pair transmission

Features
- BNC male to terminal block
- Weatherproof IP65
- Compact size with pigtail, could be mounted multi units behind multiplexer, quad, DVR

Kit
- FK55TTP111VT + FK55TTP111VL

Twisted Pair Ground Loop Isolator	Video, Power, Data Transceiver	Coaxial Video Ground Loop

FK55TGP001

FK55TTP111VPD

FK55GB001

Features
- BNC male to 2 pin terminal block.
- Transmit a full motion monochrome video signal up to 600 meters, colour video signal up to 300 meters.

Features
- Male BNC with DC Plug+2 pin pigtail to 6 "push pin" terminal
- Push pin terminal for easy cable connection
- Transmission over one CAT5 cable

Features
- BNC male to BNC female
- Built in video BALUN, for extra interference rejection
- Built in TVS (Transient Voltage Suppressors)

AC Power Surge Protector	AC to DC Power Converter	AC to DC Power Converter

FK55SP001PAC

FK55PC1A

FK55PC500

Features
- Terminal connector to terminal connector
- Under 1ns - 400V
- Protects AC100-120V, AC220-240V power
- Max current up to 2Amp

Features
- AC to DC12V power converter, 1AMP Max
- Regulated output

Features
- AC to DC12V power converter with DC plug cable 500mA Max
- AC14-AC24 to DC12V, DC15-DC30 to DC12V

4 Channel Video Transceiver	4 Channel Active Receiver

FK55TTP414V

FK55TTA414VR

Features
- 4 x BNC female to 1x RJ45 female + 8 pin terminal block.
- Four passive transceivers in one product.
- Choice of RJ45 or push pin terminal inputs/outputs

Features
- Built in 4 port active receivers.
- Others identical to TTA111VR.
- Built in a highly balanced mode of video transmission for extra interference immunity

Features
• Extend PS/2 Keyboard and mouse via one CAT5 UTP cable
• Including local and remote unit
• Passive, no power required

FK55KM02

Features
• Extend USB keyboard and mouse via one CAT5 UTP cable
• Local unit (PC side): USB to RJ45, Remote unit (keyboard mouse side): RJ45 to PS/2

VGA Keyboard Mouse Hub	Video to VGA Converter	Video Amplifier

FK55VKM01

Features
• Extend VGA and keyboard mouse over 2 CAT5 UTP cable to instead of VGA cable and keyboard mouse cable

FK55AD001

Features
• Support NTSC video system
• On screen display
• The DEINTERLACED output mode: NTSC: 640 x 480

FK55CA101

Features
• 1 video input to 1 video output
• 10dB video gain compensation amplification and HF compensation
• Sharpness and brightness adjustment

CAT5 VGA Extender

FK55TTP111VGA

Features
• Passive device, no power required
• Including 2 units as transmitter and receiver
• Supports up to 1280x1024 pixels
• Up to 135 meters via standard 4 pairs CAT5 UTP or STP cable instead of VGA cable
• Transmitter built in virtual DDC to avoid improperly setting at resolution and frequency
• Transmitter built in sync mode selection for signal stability
• Receiver built in sync filter level adjustment for signal stability
• Perfect for classrooms, lecture halls, tradeshows, video information displays…

GYRO TECH
by NABCO Entrance inc.

GT 500 Low Energy ADA Swing Door Operator

Features
- Low current draw - less than 5 amp, 115 VAC, 1-phase
- Magnum microprocessor base control with multiple functions to suit your requirements
- Adjustable closing speeds allow the door to close sooner for energy savings or slower for increased pedestrian protection
- "Push-n-go" feature provides easy operation for handicapped or elderly pedestrians and eliminates the cost of wall switches
- Recycle feature stops and reverses direction of swing path when an object is encountered for greater pedestrian protection
- Heavy-duty spring closer
- Heavy-duty all-steel motor and mechanical gear box outperforms the competition
- All features, components and accessories meet ANSI 156.19 standards. They are also CSA and UL approved and comply with ANSI 117.1 and the Low Energy Operator section of ADA.

GY5550028RHO Right hand out   GY5550028LHO Left hand out

GT 710 Swing Door Operator

The GT System 710 swing door operates in both automatic and manual modes. The access system features a two to 60 second hold-open range and a "push-n-go" feature for automatic opening when activated by a pedestrian. The system also incorporates an automatic "sensitivity adjustments" feature to stop, then close the door if an obstruction is encountered. In the manual mode, the system closes slowly upon release to enable passage.

Features
- A compact 5-3/4" x 6" (146.0 mm x 152.0 mm) cross section
- Easy manual mode operation with door closer in event of power failure
- Adjustable opening and closing speeds for safe operation and energy savings
- Sensitivity Adjustment features may be affected by windy conditions.
- All features, components and accessories meet ANSI 156.19 standards. They are also CSA/cUL and UL approved and comply with ANSI 117.1

Solid Brass
Manufactured to OEM specifications
Supplied with 6 tail pieces
(3 KIK and 3 Deadbolt)
Screw cap tail piece attachment
• 32 keyways
• 2 finishes (04 & 26D)

Turnknob Mortise Cylinders

Solid Brass
Available with Standard and ADA Thumbturn
• 4 lengths (15/16" to 1-1/4")
• 8 finishes
• 16 cams available

Turnknob Rim Cylinders

Solid Brass
Available with Standard or ADA Thumbturn
• 4 lengths (15/16" to 1-1/4")
• 3 finishes (03,10B, 26D)
• 16 cams available

IC Cores

28026

Solid Brass
Manufactured to OEM specifications
Uses OEM Best pins or A2 aftermarket pins
• 13 keyways (A –Q)
• 2 finishes (04,26D)

Dummy Mortise Cylinders

Solid Brass
• 4 lengths (15/16" to 1-1/4")
• 12 finishes

Dummy Rim Cylinders

IU26701025

Solid Brass
• 1 length (1-1/8")
• 12 finishes

IC Housings

R28106

Solid Brass
Available with Thin Head Mortise or Rim
Available with Tapered Head Mortise only
Available with Rim Cylinder Conversion Kit
• 6 finishes

008 Mini-Mite

IU6200812

Manual Operation

The 008A "Mini-Mite" is a lightweight, compact yet versatile machine that is perfect for carrying right to the job. Perfect for mobile shops, or wherever space is tight.

045HD

IU62045HD

Manual Operation

A real money-maker, the 045HD is the perfect basic key duplicator, ideal for virtually any key cutting outlet. Economical, accurate, and simple to operate, the 045 HD is loaded with useful features any user will readily appreciate. Its performance tested design makes it an excellent choice for store, shop or mobile use. Performance tested to assure years of dependable service.

BRAVO III

IU62BRAVO

Semi-Automatic (Lever) Operation

A high quality, sturdy key duplicator designed to deliver years of service. The Bravo III Now comes with the new EZ-Jaw, twin shaft carriage transport design, spring loaded carriage and a micrometer adjustable cutter guide. Delivers unsurpassed accuracy and cutting performance.

044HD

IU62044HD

Semi-Automatic (Lever) Operation

The 044 HD Performance Series Key Duplicator is particularly useful when multiple duplicates of a key are needed. Features of the model include the Super Jaw 3, four-position vise jaws to provide superior key "grip" on virtually any standard cylinder key. The semi-automatic design allows the operator to duplicate with speed and accuracy. Function, combined with attractive styling, makes the 044 HD an excellent choice for standard key duplication.

TRI-CODE H.S.

IU62TRICODE

Electronic Operation
For Automotive Keys only

Dual Function - Code and Duplication

The Tri-Code H.S. cuts popular sidewinder/laser style, high security automotive keys by code, bitting number or duplication. Simple to operate, this electronic machine will eliminate the guesswork and effort associated with cutting sidewinder/laser style automotive keys.

EZ®-CODE

IU62EZCODE

Electronic Operation
For Automotive and Commercial Keys

Dual Function - Code and Duplication

The Ilco EZ-Code is an electronic code machine designed to deliver high level performance at a moderate price. Accurate and simple to operate, the Ilco EZ-Code will cut automotive and commercial keys by bitting number, indirect code (automotive keys) or by duplication.

ilco®

TKO - Transponder Key Originator

The TKO is a professional programming tool that features integrated hardware, enhanced operating software and simple cable connections.

The increased restrictions with "on-board programming" procedures make the TKO your solution for providing replacement keys for newer automobiles.

Features
• Program transponder keys
• Originate transponder keys
• Delete lost or stolen keys
• Read and reset vehicle immobilizer error codes
• Determine number of keys programmed to the vehicle
• Archive customer data
• Program remote keyless entry (GM, Chrysler, Toyota)
• Powered by connection to vehicle OBD, or by120VAC or 12VDC convertor

IU61TKO

RW4 Plus Professional Transponder Key Duplicator

Designed for professional use, the RW4 PLUS lets you take control of Texas Instruments (TI) and Philips encrypted codes and fixed codes transponder keys.When the RW4 PLUS is utilized in conjunction with Ilco® electronic keys, you can eliminate the twomaster (original) key requirements for "on-board" programming. It is a stand-alone device with no PC, internet connection or additional software required.

Features
• Clones TI and Philips encrypted codes and fixed codes (T2, T5) transponder keys
• Identifies presence of a transponder and indicates chip type, value and manufacturer
• Code Generation Capable
• Software updates are based on new vehicle information & technology
• Free updates for one year from purchase
• Archiving Function
• 12V DC adapter included for "on the road" services
• Built in "soft touch" key pad
• Multiple language support
• Easy to read LCD screen

FALCON

Introducing the automatic operator that changes everything

The new Falcon 8200 Series automatic operator ensures smooth, convenient door opening for areas requiring easy accessiblity and ADA compliance. This versatile device can also be easily integrated into electrified openings with our wireless accessories kit. Choose the 8231 for pull side or the 8242 for push side installation.
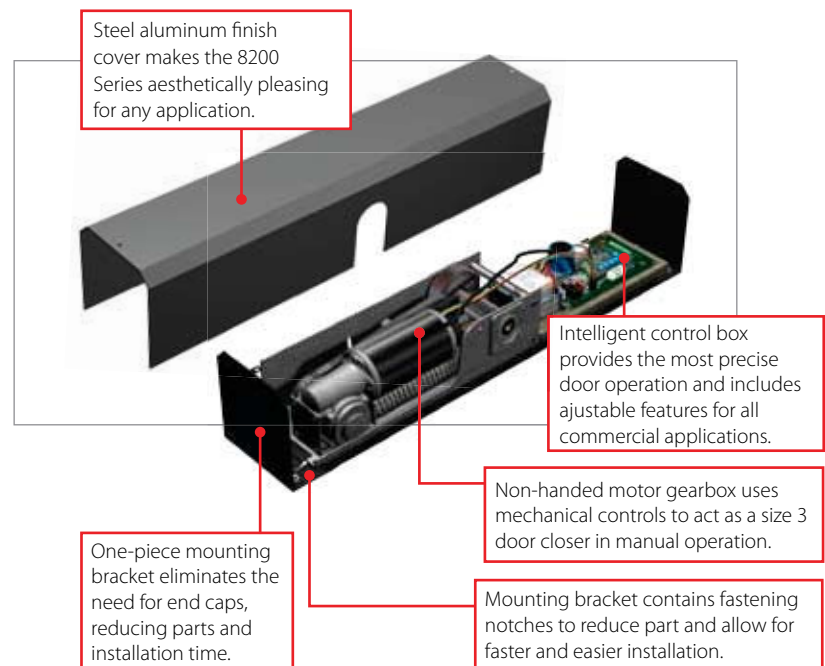

Beauty, value and versatility are now automatic

When you need a smart solution to improve accessibility the new Falcon 8200 Series fits perfectly. Designed for applications like assisted living and ambulatory care, where ease of use is critical, the Falcon automatic operator provides dependable performance at an affordable price point. Everything you need is right in the box, making installation quick and foolproof. All necessary features are built right in, so configuring the closer is simple and you can easily make more openings more accessible than ever.

Features
• SmartLatch – Senses and overcomes external pressure conditions with a graduated energy assist for secure latching
• Push 'n' Go – Selectable feature allows door to open automatically as soon as it feels pressure
• Open Position Learning – Automatically sets the opening position to eliminate wall and door damage
• Obstacle Obstruction Detection – Safety feature stops and reverses door direction when distress or an obstruction is sensed
• Pre-Load Strike Assist – Removes load on strike lip with a one second delay allowing the door to release and automatically open
• LED Light Illumination – Light illumination on control box signals accurate installation and helps with connection diagnostics
• On Board Power Supply (12 VAC) – Powers the accessories without the need to install an external power supply

FL55B231 - Pull   FL55B242 - Push

Steel aluminum finish cover makes the 8200 Series aesthetically pleasing for any application.

Intelligent control box provides the most precise door operation and includes ajustable features for all commercial applications.

Non-handed motor gearbox uses mechanical controls to act as a size 3 door closer in manual operation.

One-piece mounting bracket eliminates the need for end caps, reducing parts and installation time.

Mounting bracket contains fastening notches to reduce part and allow for faster and easier installation.

W Series Cylindrical locksets QUANTUM

Features
• Door Thickness: 1-3/8" to 1-3/4" standard.
• Backset: 2-3/4" standard; 2-3/8" also available.
• Handing: Locks are non-handed.
• Keyways: "G" keyway standard on Falcon standard cylinders. "A" keyway standard on I/C core cylinders. Also available with some optional keyways. Schlage "C" keyway also in stock
• Trim: Roses are 3-5/8" diameter, heavy wrought brass or bronze, installed over steel rose inserts which are through-bolted through door. Levers are pressure-cast zinc (solid levers-no-inserts) finished to match mating parts.
• Latches: 1/2" bolt projection made of stainless steel and UL listed for 3-hour door assemblies. Latches have self-adjusting fronts to accommodate beveled or flat doors.
• Strikes: 4-7/8" x 1-1/4" ANSI strike with curved lip to meet ANSI A115.2 door frame preparation standard.
• Screws: Furnished with combination screws for use in wood or metal doors and frames.
• ANSI/BHMA: Meets ANSI/BHMA A156.2, Series 4000, Grade 2.
• UL: 3-hour A label.

LCN

LC521261

1260 Series Door Closer

Features
- Standard 1260 series closer shipped with regular arm, a shaft cover, and self reaming and tapping screws
- Non-sized (1-5) cylinder is adjustable for interior doors to 4'6" and exterior doors to 3'6"
- Closer mounts hinge side, top jamb and parallel arm on either right or left swinging doors
- Mounts to most common commercial footprint (3/4" x 9 1/16")
- Designed for moderate traffic in many commercial facilities

LC521461

1460 Series Door Closer

Features
- Standard 1460 series closer shipped with regular arm, a slim line plastic cover, and self reaming and tapping screws
- Non-sized (1-6) cylinder is adjustable for interior doors to 5'0" and exterior doors to 4'0"
- Closer mounts hinge side, top jamb and parallel arm on either right or left swinging doors
- Used for a variety of both commercial and institutional applications

LC522036L (R)

2030 Series Door Closer

Features
- Standard 2030 series closer shipped with standard arm, standard track, mounting/finish plate, and wood and machine screw pack
- Sized cylinders for interior doors to 4'6" and exterior doors to 3'6"
- Handed for right or left swinging doors
- Aluminum frame requires minimum 1 3/4" (44 mm) x 4" (102 mm) tube
- Heavy duty concealed in frame closer

LC523133L (R)

3030 Series Door Closer

Features
- Standard 3030 series closer shipped with regular arm and wood and machine screw pack
- Sized cylinders for interior doors to 4'0"
- Handed for right or left swinging doors
- Concealed in door closer for interior doors

GRADE 1 & GRADE 2 SERIES

Grade 2 A Series Entrance Locks

ORBIT   PLYMOUTH   TULIP

SC1153O626
SC1153P626
SC1153T626
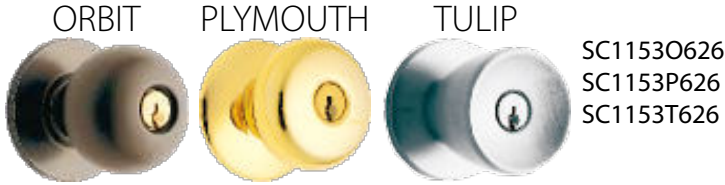

Features
- Cold rolled steel, machined, threaded hubs and locking nuts prevent loosening of the lockset by bolting chassis to the door
- Heavy duty cast mounting plate with specially tapped holes keeps lockset tight on door. Large diameter of mounting plate and rose covers new ANSI hollow metal door cutout
- A-Series for 1³⁄₈″ to 1⁷⁄₈″ (35 mm to 48mm) thick doors
- Limited commercial warranty : 3 years

Grade 2 AL-Series Commercial Locks

NEPTUNE   SATURN

SC11AL53N626
SC11AL53S626

Features
- True through-bolting of door prevents lock chassis rotations and disengagement from latch
- Stainless steel interlocking spindle design for added strength against excess force when lever is in locked position or latch has been fully retraced
- Cold rolled steel, machined, threaded hubs and locking nuts prevent loosening of the lockset by bolting chassis to the door
- Heavy duty compression springs extend life of spring cage, minimize droop and provide smooth, fast return action of levers
- AL-Series for 1 ³⁄₈″ - 1 ⁷⁄₈″ (35 mm - 48 mm) thick doors

Grade 1 B600-Series Deadbolts

SC1466026
Keyway "C"

SC14E660626
Keyway "C123" Everest

Features
- 1″ throw deadbolt and thumbturn levers for easy operation
- Solid brass or bronze cylinder collars, a security shield to prevent "ice pick attacks" and hardened steel ball bearings to protect the two heavy ¼″ mounting bolts from drilling attacks
- Come with wood frame reinforcer anchored with two heavy 3″ screws to resist kick-in attacks and free-spinning solid or reinforced collars to resist cylinder wrenching

Schlage L9000-Series Commercial Lock

SC134531526

Features
- Fully wrapped heavy-gauge steel case protects against attacks
- All-metal zinc dichromate-plated working parts
- Two-piece anti-friction tongue reduces wear and tear
- Outside and inside trim thru-bolted together and through the door
- Break-away spindle prevents unsecured failures
- Hub blocking plate protects lock against spindle manipulation
- Inside lever applied by screwless shank mounting – no exposed trim mount screws
- Universal lock case – ten functions in one case
- Floating mounting tabs automatically adjust to fit a bev. door edge
- Field-reversible handing without opening lock case
- External spring cages allow for simple trim retrofit
- Lever rotation in both directions (up and down) for ease of use
- Independent lever rotation

Grade 1 D-Series Levers

SC11D10OL26   (passage)
SC11D50OL626   (entrance)
SC11D80OL26   (storeroom)

RHODES

Features
- Vandlgard® functions have free-wheeling levers to resist force when locked
- Independent heavy duty spring cages for effective lever support.
- Thru-bolted mechanism for positive interlock to door
- Concealed mounting screws
- Steel latchbolt

Grade 2 Standard Duty – B500-Series Deadbolts

SC1456026
Keyway "C"

SC14E56026
Keyway "C123" Everest

Features
- 10% larger deadbolt diameter
- Adjustable lock-in-place backset for 2 ³⁄₈″(60 mm) or 2 ³⁄₄″ (70 mm)
- Integrated anti-pry shield to prevent picking
- 1″ (25 mm) reinforced trim ring and tapered housing rotate to protect against wrenching the cylinder
- Solid brass 6-pin cylinder offers added protection and durability
- Metal dust box reinforcer with three 3″ screws protect against kick-in attacks

E-Plex 3000 / 3200 / 3700 Series (Electronic Narrow Stile Lock)

(See Kaba spec sheet for detailed specifications - # KAA1117 0209)

Features
• Retrofits inside trim for Adams Rite – see spec sheet for models
• Available for either Mortise Dead Latch or Deadbolt
• E-Plex 3000
    - 300 Access Users per door
    - 9,000 event audit trail
    - Programmed via keypad or with Standard software
• E-Plex 3200
    - 3,000 Access Users per door
    - 30,000 event audit trail
    - 16 Access Schedules – 32 Holiday / Vacation blocks available
    - Programmed via Enterprise software
• E-Plex 3700
    - 300 Users with HID Prox Card using Learn Lock feature (no software)
    - 3,000 Access Users per door
    - 30,000 event audit trail
    - 16 Access Schedules – 32 Holiday / Vacation blocks available
    - Programmed via Enterprise software
• Four AA batteries provide over 180,000 cycles

Installation
• No wires through door
• Easily installed with 4 mounting screws
• Door thickness 1-3/4"(44mm)

Warranty
• 3 year warranty from date of installation

E-Plex 5000 / 5200 / 5700 Series (Electronic Pushbutton Lock)

ANSI/BHMA Grade 1 Certification
(See Kaba spec sheet for detailed specifications - # KAA1054 0108)

Standard Features
• Available in Cylindrical, Mortise, Exit Device or Access Controller
• Four AA batteries provide over 180,000 cycles
• Three hour UL/ULC fire rating for A labeled doors

Unique Features
• E-Plex 5000
- Pin Access
- 100 Access Users per door – without software
- 300 Access Users per door – with Standard software
- 9,000 event audit trail
- Programmed via keypad or with Standard software
• E-Plex 5200
- Pin Access
- 3,000 Access Users per door
- 30,000 event audit trail
- 16 Access Schedules – 32 Holiday / Vacation blocks available
- Programmed via Enterprise software
• E-Plex 5700
- Pin or Prox or Dual Credential Access
- 300 Users with HID Prox Card using Learn Lock feature (no software)
- 3,000 Access Users per door
- 30,000 event audit trail
- 16 Access Schedules – 32 Holiday / Vacation Blocks available
- Programmed via Enterprise software

Installation
• No wires through door
• Cylindrical – ASA 161 door preparation with 4 additional holes
• Mortise – ASA 86 door preparation with 2 additional holes
• Exit Trim – ASA 161 door prep with 2 additional holes
• Door Thickness – 1-3/8" (35mm) to 2-1/4" (57mm) door thickness

Warranty
• 3 year warranty from date of installation

Simplex 1000 Knob lock & Lever lock

Features
• Single access code - one easy to manage code for all users
• Lock is easily programmed via keypad without removing lock from the door
• Factory-handed for left hand doors; easily field reversible
• Small format interchangeable cores, large format removable cores
• Cylindrical latch with 3-hour UL/ULC fire rating on "A" labeled doors

Operation Mode Options
• Single credential - access
• Passage (select models) - Allows access without using the lock entry code. Feature activated from the inside with a thumbturn or key (included with all passage feature models)
• Lockout (select models) - Disables the lock from the inside so that the entry codes can not be used to gain access. Access is permitted using the key override only

Linear® SECURITY

® Group

Supervised 1-Button, 1-Channel Pendant Transmitter

Features
- Water-resistant
- Full RF supervision, field enabled
- Up to four years of battery life
- Pendant configuration
- Adjustable nylon neck cord with breakaway release
- DXS format
- RF frequency: 315 MHz

LI55DXS64

Supervised Emergency Alarm Transmitter

Features
- Water-resistant
- Large easy-to-find HELP button
- Full RF supervision, field enabled
- Long-life lithium batteries
- DXS format
- RF frequency: 315 MHz

DXS65

Commercial Telephone Entry System

Features
- Installation choices: surface, recessed, gooseneck
- Stainless steel front panel
- Accepts a total of 125 directory listings or stand-alone entry codes
- TTY jack for connection to text communication devices for the hearing impaired
- Simple network capability with up to four units
- Two-line-16-character LCD display
- Form "C" access relay rated at 10 amps AC and 7 amps DC @ 30 volts

LI55AE100

Music Distribution System Kit

MDS6AKIT2   Kit includes: 1x MDS6AKIT2, 6x MCS1A, 6x 2171

Features
- Six audio sources selectively switched to six speaker zones
- 12 channels (6 stereo) x 40 watts per channel amplifier power
- Front panel speaker zone on/off status indicators
- Removable speaker terminals with wire lock levers
- User feedback to all back-lighted system keypads
- RJ-45 connection to each keypad with Cat-5 cable
- IR target built-in to each keypad
- IR remote control of audio sources with six source-specific, routed IR output ports
- Total harmonic distortion @ 1 kHz 0.02%
- Signal-to-noise ratio greater than 95 dB
- Zone-to-zone crosstalk isolation greater than 70 dB

Supervised 1-Button, 1-Channel Wristband Transmitter

Features
- Water-resistant
- Full RF supervision, field enabled
- Up to five years of battery life
- Pendant, Velcro strap, wristband, belt clip, or pocket clip configurations
- Visual activation indicator
- DXS format
- RF frequency: 315 MHz

LI55DXS62

Supervised 4 or 8 Channel Receiver

Features
- Dual diversity superheterodyne receivers
- Compatible with DX and DXS transmitters
- Quick-learn programming
- Individual outputs per RF channel for alarm, low battery, and status trouble reports
- Solid state outputs
- 100 mA maximum output rating
- Selectable outputs /ch: momentary, latch, toggle
- Operating voltage: 10.2 to 14.4 VDC or 12 to 16 VAC

LI55DXSR1504
LI55DXSR1508

Commercial Telephone Entry System

Features
- Stainless steel front panel
- Telephone style keypad with surround lighting
- Up to 250 user capacity
- Accepts up to 500 entry codes
- Built-in RF receiver
- Two-line-16-character LCD display
- Installation choices: surface, recessed, gooseneck
- Built-in modem for remote programming
- Two configurable output relays
- RF frequency: 318 MHz

LI55AE500

Personal Emergency Reporting Kit

Features
- Two-way voice capability
- Braille characters for help, home, and cancel buttons
- Delayed, silent alarm feature
- Selectable inactivity reporting: 8, 12, or 24 hours
- Distinct alarm tones provided for emergency and fire alarm conditions
- Capacity for up to 16 DX/DXS transmitters
- Programmable with Windows-based RA-2400 Software
- Operating frequency: 315 MHz
- Backup battery size: 12 volts, 1.2 Amp/hour (30 hour backup)

LOUROE ELECTRONICS
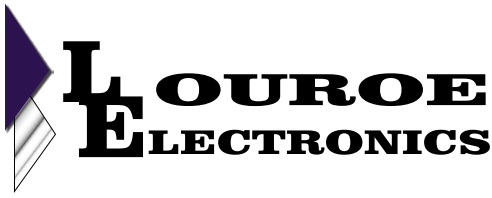

Verifact Microphones

Models A, B, C, D, D-V, E, L-TD

- Electret Condenser, omni-directional
- Line level output
- Built-in pre-amp
- Picks up normal sounds approximately 15' away
- May be located up to 1000' from base station or Audio Interface Adapter

Model K

- Electret Condenser, modified omni-directional
- Line level output
- Built-in pre-amp
- May be located up to 1000' from base station or Interface Adapter
- Picks up normal sounds 12' away from front and less from the sides and back

Model M

- Electret Condenser, bi-directional
- Line level output
- Built-in pre-amp
- Pick up normal sounds approximately 10' away
- May be located up to 1000' from base station or Audio Interface Adapter

Audio Interface Adapters

Model IF-1

- Receives wiring from microphone
- Provides phantom power to the microphone
- Outputs to DVR/VCR or computer sound card
- Variable gain adjustment for input to sound card
- RCA, 3.5mm stereo and 3.5mm mono cables included
- 12 VDC power supply included

Model IF-2, IF-4, & IF-8

- Terminal blocks for microphone connections
- Supplies 12VDC power to the microphones
- Dual outputs (per microphone) to accommodate either an RCA input or 3.5mm input connection to DVR, IP Network Camera, etc.
- Gain adjust (each output) to prevent overdriving or underdriving the audio signal
- 12 VDC power supply included
- RCA cable and 3.5mm mono cables (with stereo adapter) included
- Audio test switch with LED indicator

Kit 101

- Audio output (RCA) to DVR, VCR
- Omni-directional microphone can pick up normal sounds 15' away if wall mounted or within a 30' diameter circle if ceiling mounted
- 3" speaker for monitoring live audio and playback from a DVR or VCR
- 3.5 mm headphone jack for private listening
- Microphone may be mounted up to 1000' from the APR-1 Base Station

Kit 300

- Omni-directional microphone can pick up normal sounds 15' away or within a 30' diameter circle.
- Contains a gain adjust to prevent overdriving of signal into a DVR, soundcard, IP Network Camera, etc.
- Three types of audio outputs to accomodate most recording devices that accept line level audio input
- Model IF-1 Audio Interface Adapter provides phantom power to the microphone.
- 12VDC/110V power supply included
- Connector cables from audio output of IF-1 to audio input of recording device included

Kit 501

- Two-way talk/listen system
- Hands-free listen and talkback at remote speaker/microphone location
- Desktop base station with built-in microphone and speaker
- Input/output to DVR/VCR for recording and playback
- Volume control for both listen and talkback
- Speaker/microphone may be mounted up to 1000' from base station
- Two back boxes - for flush or surface mount

Portable Key Storage Security Lock

Features
- Set-Your-Own 4-digit Combination
- Holds up to 5 keys; 3-1/4" (83mm) wide
- Portable, over the door knob mount for convenience
- Key Storage door pivots open smoothly and remains attached to lockbody
- Molded body and vinyl coated shackle prevents scratching
- Reinforced body withstands hammering and sawing
- Hardened steel shackle resists cutting
- Cover protects combination dials from weather, dirt and grime
- Outside dimensions: 3-1/4"(83mm) wide x 6-1/4"(159mm) long x 1-1/2"(32mm) deep

MA955400D

Wall Mount Key Storage Security Lock

Features
Set-Your-Own Combination; Wall Mount Key Storage Product; 3-1/4" (83mm) wide
- Holds up to 5 keys for house or car in a convenient location for regular use
- Wall mount design for permanent installation
- Set-your-own 4-digit combination for keyless convenience
- Key Storage door pivots open smoothly and remains attached to lockbody for convenient operation
- Reinforced body withstands hammering and sawing
- Cover protects combination dials from weather, dirt and grime
- Outside dimensions: 3-1/4"(83mm) wide x 4-3/4"(121mm) long x 1-1/2"(32mm) deep

MA955401D

Locking storage bag

Features
- 10" (25.4cm) x 8-5/8" (21.9cm) x 1-7/8" (4.8cm)
- Safely carry cash, jewelry and confidential documents
- Water resistant nylon
- Built in high security lock
- Identification holder and card

MA957120D

Wall Mount Single Key Safe

Features
- Holds a single key which is permanently affixed to the storage compartment's removable cartridge to prevent misplacing the key after use
- Set-your-own 4-digit combination
- Cover protects combination dials from weather, dirt and grime
- Integrated LED illuminates dials for easier nighttime access
- 2-1/4"(58mm) wide x 5-1/2"(140mm) long x 2"(51mm) deep

MA955404D

Select Access™ Mini Safes

Features
- 6" (153mm) cable lanyard loops back over the locking bar to attach mini safe to a fixed object
- Combination locking mechanism for keyless convenience
- Realtree APG camouflage pattern ideal for outdoor applications where secure, concealed storage is required
- For indoor or outdoor use

Lockout Hasp

Features
- Lockout by multiple workers at each lockout point
- Keeps equipment inoperative while repairs or adjustments are made
- Control cannot be turned on until last worker's padlock is removed from hasp
- Heavy duty pry proof steel

#	Material	Jaw	P-Lock
418	Steel	1"	6
419	Steel	1"	8

Labeled Red Lockout Hasp

Features
- Features an easy-to-apply 'snap-on' advantage with its spring-loaded locking arm
- Fits more lockout points than alternative rivet-hinge labeled lockout hasp
- Anodized aluminum and stainless steel construction for combined corrosion-resisance and strength
- Complete with high visibility, re-usable write-on safety labels (English, French & Spanish) - identify the responsible person, then erase for the next job
- Dimensions are 2-7/8" x 7" with 1-3/4" x 2-1/8" inside jaw diameter, holds up to 5 padlocks

427

Series 410 & 411 Padlocks

Features
- Designed exclusively for Lockout/Tagout applications
- Durable, lightweight, non-conductive Xenoy lock body
- Customize on-site with permanent, write-on labels
- Compliance with OSHA «one employee, one lock, one key" directive
- High security, reserved-for-safety cylinder
- Key retaining-ensures that padlock is not left unlocked
- Master keyed 6-pin tumbler cylinder

6835 Padlock Family

Features
- 2-3/8" (61mm) wide laminated steel body for superior strength
- Hardened boron alloy shackle for superior cut resistance
- Solid iron shackle shroud resists harsh physical attacks
- 5 spool pin tumbler cylinder for added pick resistance
- Removable cylinder can be replaced or re-pinned
- Dual ball bearing locking mechanism resists pulling and prying

---

Cable Lockout

Features
- Patented pull-tight cable adjusts for a secure fit every time
- Integrated safety hasp and cable is ideal for multiple circuit breaker panel and side-by-side gate valve lockouts
- Tough, flexible multi-stranded 1/4" dia. steel cable is insulated with a clear vinyl coating
- Tough, lightweight Xenoy thermoplastic body withstands chemicals
- Performs effectively in extreme conditions (-50°F to +300°F))
- Includes high-visibility, re-usable, write-on safety labels (English, French & Spanish)

8611

Grip Tight™ Circuit Breaker Lockout

Features
- Innovative patent-pending Grip Tight™ design effectively locks out circuit breakers
- Adjust to breaker with simple thumb turn and then close clamping handle for a tight grip on the toggle
- Great strength with universal fit
- Compact device is easy to carry and easy to store
- Accepts all American Lock and Master Lock safety padlock shackles and lockout hasp diameters
- Durable construction with powder coated steel and reinforced polymer for operation in harsh environments

491B - hi-voltage/hi-amperage breakers
493B - 120 and 240 volt breakers

Rotating Gate Valve Lockouts

Features
- Outward/inward rotation allows for easier installation and storage
- Surrounds the valve operating handle to protect against accidental valve opening
- Unique patent-pending rotating design allows for easier installation in confined space applications
- Each size rotates into itself and nests into the next larger size to save space in safety tool boxes
- Center knockout can be removed for rising stem gate valves
- Multiple workers can apply their personal safety locks
- Complete with high-visibility permanent safety labels (English, French & Spanish) that can be written-on to identify the responsible person, then erased for the next job
- Tough, lightweight, dielectric Xenoy™ thermoplastic bodies withstand chemicals
- Perform effectively in extreme conditions (temperature range: -50°F (-46°C) to 350°F (177°C)

#	Valve size
480	1" to 3"
481	2" to 5"
482	4" to 6-1/2"
483	6" to 10"
484	8" to 13"
485	one of each

Master Lock

Automotive Security

Towing Security

Features
- Fits 1-7/8", 2" and most 2-5/16" trailer couplers
- Advance locking mechanism resists picking and prying
- Easy to install and remove
- Resists rust and corrosion
- Keyed alike

MA47377DAT

Swivel Head™ Universal Trailer Coupler Lock

Features
- Keyed alike convenience
- Weather Tough® seal resists corrosion
- Uses K1 key blank
- 5/8" stainless steel receiver lock and adjustable coupler latch lock

MA473794DAT

Universal Heavy Duty Trailer Coupler Lock

Features
- Fits both Fixed and Adjustable style Gooseneck / Fifth Wheel, King Pin and Lunette Eye couplers
- Laminated steel frame construction
- Ultrasonic welded plastic housing
- Keyway cover protects lock cylinder

2989AT

Universal Trailer Coupler Lock

Features
- Fits 1-7/8", 2", and 2-5/16" couplers manufactured by Reese®, Fulton, Valley, Atwood®, Shelby, Putnam, Hammerblow, Dutton Lainson, and UFP.
- Advanced locking mechanism resists picking and prying.
- Keyway cover protects lock from moisture and dirt

MA47379DAT

Key Safe

Features
- Receiver lock fits 5/8" receiver holes and can be used with or without the safe
- Swivel Head™ design for easy access
- 4-dial set-your-own combination lock
- Personal safe protects keys, credit cards and personal items
- Weather seal protects lock mechanism

MA471467DAT

MINUTEMAN®
Power Technologies
From Para Systems, Inc.

400 and 600 VA Stand-by UPS with 6 outlets

Features
- Three UPS outlets and three surge-only outlets
- Two transformer-friendly spaced outlets perfect for AC adapters
- Fax/modem protection
- Built-in USB communications port
- Includes Minuteman® SentryPlus™ software for power monitoring and control
- Three-year warranty for electronics (Two-year warranty for internal batteries)
- RoHS compliant

Power Regulator

12 and 24 VDC solar panel power regulator. Common application includes; access control, parking management and most automation systems.

RS10A

Box IP Camera Mpeg 4

Features
• 1/4" High Dynamic Range Camera Sensor
• f3.6mm @ F2.0 CS lens
• CS Ring for Change
• 2-way Audio, DI/DO, RS485, RJ45
• 1.3 Mega Pixel progressive sensor
• Poe

OVM7000

2 way RF receiver

RF receiver used with solar powered radio keypad. Ideal for access control, automatic devices, parking management and alarm.

RT245

Box IP Camera H.264

Features
• 1.3 Mega-pixel image sensor
• H.264, MPEG 4 and MJPG simultaneously
• F:1.8; f:4.3mm; CS mount
• LAN 10/100MB Tx
• 3GPP for 3G mobile remote application
• Featured 2-way audio

OVMH7000

Solar Power RF Keypad

Analogue PIR

Features
- Immune to animals weighing up to 18kg (40lbs)
- 11m x 11m (35ft x 35ft) and up to 15m (50ft) for center beams with 88.5° viewing angle
- Extremely high EMI and RFI rejection
- Patented Auto Pulse Signal Processing
- Automatic Temperature Compensation
- Metal shield maximizes protection from EMI and RFI signals

PET IMMUNITY

PZ55476PET

Glassbreak Detector

GlassTrek

Features
- Remote test when used with Test Trek V2
- Full audio and infrasonic spectrum analysis
- 7 frequency digital filters, digital amplifier gain and frequency fluctuation assessment
- Impact and shock wave analysis
- Adjustable sensitivity: covers up to 9m (30ft) when set to high and up to 4.5m (15ft) when set to low

PZ55457

360° Ceiling Mounted Digital Motion Detector

Features
- Two operational modes (addressable for the Digiplex and Digiplex EVO series or conventional relay operation)
- Dual opposed element sensor
- Digital Detection
- 7m x 6m (24ft x 20ft) at 2.4m (8ft)
- 11m x 6m (35ft x 20ft) at 3.7m (12ft)

PZ55DG467

Test Trek

TestTrek PARADOX

Features
- Toggle test mode remotely
- Use with DG457 and 457 to test the modules

PZ55459

Outdoor High-Security Digital Motion Detector

Features
- Impact and temperature resistant casing (-35°C to 50°C / -31°F to 122°F)
- Patented Digital Motion Detection
- Dual Optical Filtering System
- UV protected lens
- Dual optics (2 dual opposed element sensors)
- Multi-level sensitivity adjustment

PET IMMUNITY

PZ55DG85W

High-Security Digital Motion Detector

Features
- Dual optics (2 dual opposed element sensors)
- Provides superior pet immunity using a patented combination of advanced optics and digital processing technologies
- Immune to pets weighing up to 40kg (90lbs)
- Digital Dual Opposed Detection
- 11m (35ft) X 11m (35ft); 90° viewing angle

DIGIGARD™

PZ55DG75

IP Module

Features
- Control and monitor a control panel through an IP network (LAN/WAN/Internet)
- Compatible with SP series (V2.10 or higher), MG5000/MG5050 (V2.10 or higher) and EVO control panels
- Use NEware or WinLoad to access your system through the Internet
- Receive notification of system alarms via email
- Arm/disarm individual partitions via web browser
- View live status of all zones and partitions (i.e. open/close, arm/disarm, troubles and alarms) via web browser

PZ55IP100

Hand-Held Plug-in USB Memory Key

Features
- Includes USB connector to download or upload system programming to or from a PC with WinLoad V4.0 or higher
- Lock switch to prevent accidental loss of data
- LED status indication
- Download or upload control panel/console programming within seconds
- Connect directly to memory connector on the control panel/console
- No need for a telephone line, PC or any other peripheral device

PZ55PMC5

Management Software (Access Control Edition)

Features
- Now supports internet (TCP/IP) communication. Requires IP100 internet module.
- Program access codes and settings of all users in a EVO48 or EVO192 system
- Live system monitoring (view system and zone status and troubles) without interrupting central station communication or system operation
- Arm/disarm, bypass zones and control PGMs
- Search, sort and filter saved system events

PZ55NEWACC

RS-485/RS-232 Converter Kit

Features
- Incorporates a USB port and a serial port (DB-9)
- Enables control panel to communicate with a PC at 300m (1000ft)
- Connect from the control panel's serial port connector to PC's serial port (DB-9) or USB port
- 38.4k or 57.6 baud communication (EVO)

PZ55CV4USB

GPRS Communicator Module

Features
- Compatibility : EVO48 / EVO192 (V2.02) and K641 / K641R (V1.51), SP (V3.42) and K32LCD (V1.22) and MG Series (V4.0)
- GPRS Reporting : Report system events to the IPR512 Paradox IP Monitoring Receiver via GPRS.
- Upload/Download via GPRS : Upload/download with WinLoad or NEware via a GPRS connection. GPRS allows internet communications through a GSM (cell phone) network at data rates of up to 38.8Kbit/s.
- Firmware Upgrade via GPRS : The PCS200 or control panel firmware can be upgraded remotely via GPRS or directly on-site.
- Report via text messages (SMS) : Select which event groups will send SMS messages to up 16 cell phones. Each text message contains event description, site name, date, time and any associated labels, such as area, zone and serial number. Event descriptions are pre-defined in the PCS200 module and are available in multiple languages (installer selectable).
- Control panel communication supervision : The PCS200 will report to the monitoring station should there be a loss of communication with the control panel.
- Simple installation : The PCS200 can be installed with a simple 4-wire serial connection up to 2m (8ft) from the panel. The module antenna can be installed up to 18m (60ft) from the module using optional antenna cable extensions depending on the local signal strength.

Analogue Wireless PIR

Features
- Immune to animals weighing up to 18kg (40lb)
- 11m x 11m (35ft x 35ft)
- Alive software (alarm LED continues to display when PIR is in energy save mode without compromising battery life)
- 3-minute energy save mode after two detections within a five-minute period

PZ55PMD1P

Digital Dual-Optic Wireless PIR

Features
- Immune to animals weighing up to 40kg (90lb)
- Digital Dual Opposed Detection
- Digital Shield algorithm with adjustable sensitivity
- Single or Dual Edge Processing
- 11m x 11m (35ft x 35ft) with 90° viewing angle
- 3-minute energy save mode after two detections within a five-minute period

PZ55PMD75

2-Zone Wireless Door Contact

Features
- 2-zone capabilities where each zone is independent and has its own serial number
- Zone 1 - One high-sensitivity reed switch (magnet included)
- Zone 2 - Universal transmitter input (N.O./N.C.)
- Low battery and signal transmission LED
- Anti-tamper switch
- Dimensions: 11.2cm x 3.2cm x 2.5cm (4.4in x 1.3in x 1in)

PZ55DCTXP2

Ultra-Small Wireless Contact

Features
- One high-sensitivity reed switch (magnet included)
- Wireless range in a typical residential environment:
  20m (65ft) with MG6130 / MG6160
  40m (130ft) with MG5000 / MG5050 / MG-RTX3 / RX1
- Dimensions: 4.4cm x 3.0cm x 1.9cm (1.7in x 1.2in x 0.75in)

PZ55DCT2

EVERday Smoke Detector

Features
- One high-sensitivity photoelectric smoke sensor
- Built-in piezo
- Wireless range in a typical residential environment:
  30m (100ft) with MG6130 / MG6160
  60m (200ft) with MG5000 / MG5050 / MG-RTX3 / RX1

GT55SD738

Magellan 2-Way Remote Control

Features
- Supports StayD (Version 2.0 or higher)
- Built-in transceiver 433MHz
- Displays system status using visual (LED) and auditory feedback
- Press the Status button at any time to receive the system status
- Perform up to 6 different actions per remote

PZ55REM2

Wireless Expansion Module

Features
- 32 wireless zones and 8 or more remote controls (activates on-board PGMs)
- Functions with all Magellan wireless devices (see page 11 to 14) except MG-2WPGM, MG-REM2, REM3, MG-RPT1 and wireless keypads
- Use with a PX8 to activate hardwired outputs
- In-field firmware upgradeable via a 307USB and WinLoad
- 3 PGM output and 1 optional output
- Program with an Esprit 636 or 646 keypad
- Available in 433MHz or 868MHz

PZ55RTX3

Direct Connect Interface

Features
- Incorporates a USB port and a serial port (DB-9)
- Enables control panel to communicate with a PC at 60m (200ft)
- Connect from the control panel's serial port connector to a PC's serial (DB-9) or USB port
- Includes 3 LED status indicators (PC, Panel and RX/TX)
- Communication speed: 57.6k baud (Magellan), 38.4k baud (EVO), 19.2k baud (DGP-848), 9.6k baud (MG series and Spectra SP series)

MX55SETULNH	CA38A / 2' wire

- 96 user codes, 4 partitions, 1024 events buffered
- Push button software reset (reset to default values and restart)
- The EVO series share the same programming for easy panel substitution

---

EVO192 192-Zone Control Panel Kit

Features
- 8 on-board zones (16 w/ zone doubling) expandable to 192 zones via 4-wire combus
- Built-in access control features
- Compatible with NEware
- Automatic Daylight Savings Time feature
- 5 on-board solid-state PGM outputs, negative or positive triggering
- PGM1 can be used as a 2-wire smoke input

Pick your Keypad French or English

Kit contains	
PZ55EVO192E41	Control panel
SJ551270	Battery
IC554016P	Transformer
MX55SETULNH	CA38A / 2' wire

- Supports up to 254 expansion bus modules
- 999 user codes, 8 partitions, 2048 events buffered
- Push button to activate or deactivate the Auxiliary output
- The EVO series share the same programming for easy panel substitution

---

ACM12 4-Wire Access Control Module Kit

Features
- Connections for 1 door (card reader, REX, door contact and lock output)
- Connect only 4 wires between the reader and DGP-ACM11 module when using a DGP-R910 or a DGP-R915 reader
- Automatic unlocking schedule
- Door Left Open and Door Forced Open options
- Door unlock and extended delay timers

Kit contains	
PZ55PACM12	Module
SJ551245	Battery
IC554016P	Transformer
PZ55R910	proximity reader

- Arm with card and pin with the DGP-R915
- Unlock Door On Fire Alarm option
- Built-in 1.5A switching power supply (supervised only if used)
- Supports 4-wire and 26-bit Wiegand card readers

REM15 - Magellan Remote Control

Features
• Water resistant
• Slim, ergonomic design
• Perform up to 5 different actions
• Wireless range in a typical residential environment:
- 30 m (100 ft.) RX1
- 45 m (150 ft.) with MG5000/MG5050
- 60 m (200 ft.) with RTX3, MG-RCV3

NEW!

PZ55REM15

RM3 - Hand-Held Two-Way Remote Keypad

Features
• Compatible with MG5000, MG5050 and Spectra SP series V3.00 (or higher) and RTX3 V1.31 (or higher)
• System Status Memory
• Configure which partitions the REM3 arms/disarms
• Built-In Transceiver: 433MHz
• Control up to 6 PGMs and/or generate panics
• Provides visual and auditory feedback of system status
• Press the Status button to receive system status
• Compact, water-resistant design

PZ55REM3

PCS300 - Universal IP Reporting Module

Features
• Option: Report events via IP, GPRS, and/or GSM (GPRS/GSM requires GPRS12 plug-in module)
• Report in conjunction with landline or as a backup
• Module configuration and status via the PCS300 Web Interface
• Supports standard GSM provider SIM cards
• Report via SMS (up to 8 cell phone numbers)
• 256-bit (AES) encryption for GPRS/IP reporting and Web Interface

PZ55PCS300

RX1 - Wireless Receiver

Features
• Compatible with SP Series control panels (V4.54 and higher)
• 32 wireless zones (SP Series only)
• Maximum number of remote controls: 32
• Remote control compatibility: REM1, RAC1, REM15
• Transmitter compatibility: DCT10, DCTXP2, DCT2, PMD1P, PMD75, PMD85, SD738 (SP only)
• Remote REM1 included

PZ55RX1

K656 - Touch Sense Keypad
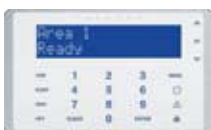

Features
• Touch Sense keys with LED backlighting
• Simplified end-user remote control programming
• 32-character blue LCD screen
• 1 addressable zone input and 1 PGM output
• Independently set chime zones
• One-touch action buttons
• Adjustable backlight, contrast, and scroll speed

PZ55K565

GS250 - Gpower Wireless Multi-axis Detector

Features
• Three-axis (X, Y, and Z axis) accelerometer detection
• Adjustable sensitivity for any installation (additional grace period of up to four seconds can be added):
-Short movement (High-security) = 1 to 3-seconds
-Long movement (Standard-security) = 3 to 5-seconds
• Long battery life (2 years with two detections per week)
• Available in 433 MHz
• Dual-tamper detection for removal or opening of the device

PZ55GS250

TM4 - Touch Interface Module

Features
• 4.3-inch widescreen colour display
• Compatible with EVO V2.16 or higher
• External SD media card slot for uploading custom themes and sounds, photos for use with the slide show function
• Built-in sensors for indoor temperature and humidity levels
• 1 zone/temperature input
• Clean screen mode: locks screen for easy cleaning
• Available in 3 colours

PZ55TM4

Pathfinder
Technologies Inc.
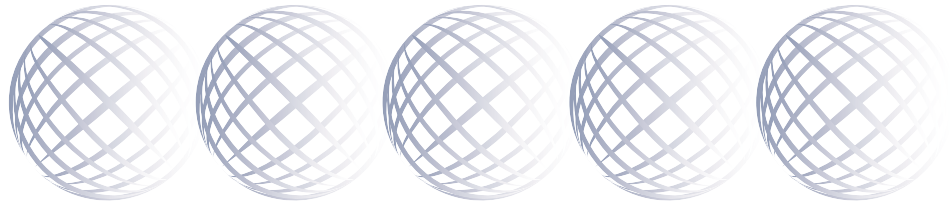

Heat Detector

NA55DC245

Features
- Reliable Bimetal thermostat design
- Brass contacts
- Fixed Temperature of 135°F
- Self-restoring
- Simple installation
- Low profile design
- Mounting hardware and tab covers included
- 2 wires, duplicate terminals
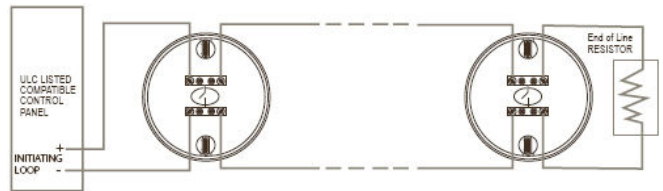

Temperature Monitor

NA55T200

Features
- Includes built-in temperature sensor -20°C to 45°C (-4°F to 113°F)
- Separate "HI" and "LO" set points
- Real-time clock
- Records highest and lowest temperatures for eight days
- Programming retained in memory if power is lost
- Displays in °C or °F

- Run temperature probe up to 500' from control console
- Temperature offset adjustment
- Defrost cycle timer - adjustable delay, 0 to 99 minutes
- "HI" or "LO" messages appear in LCD display and the temperature reading flashes during an alarm condition

Commercial Carbon Monoxide (CO) Monitor

NA55CO643

Features
- Long sensor life - proven semi-conductor technology
- Calibrated to carbon monoxide - specific
- Preset alarm levels, no adjustment required
- Unit is self-monitoring against system failures
- 3 status indicators
- Reset button to acknowledge and shut off alarm for 15 minutes
- Distinct 85dB alarm
- System Test Feature
- Will monitor an area of up to **5,000 sq. ft**.

RCI
RUTHERFORD CONTROLS

Universal 6 series

Features
- Includes 3 faceplates • 04, 14, 08
- 1/4" Horizontal adjustment
- Accommodates 3/4" (S-Standard Profile) or 5/8" (L-Low Profile) latch projection
- Stainless steel faceplate
- Modular design
- Non-handed
- Field selectable voltage input • accommodates 12 or 24VDC and 12 to 24VAC (even 16VAC) in one strike!
- Field selectable lock mode • choose fail locked or fail unlocked with the turn of a dial (Fail unlocked mode requires DC)
- Modular "plug-in" wire connectors for fast hook-up
- Modular faceplate designs for a variety of frame types and cut outs
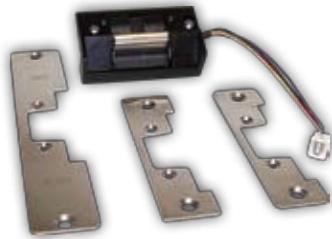

RF55L65U • Low Profile

RF55S65U • Standard Profile

Includes 3 faceplates
04 – 1-1/4" x 4-7/8" ANSI Round Corner (Aluminum or Wood Frames)
14 – 1-1/4" x 4-7/8" ANSI Square Corner (Hollow Metal or Wood Frames)
08 – 1-7/16" x 7-15/16" Round Corner (Aluminum or Wood Frames)

Power distribution device

Features
- Box size: 14"H x 14"W x 4"D
  12VDC – 5 Amp
  24VDC – 3 Amp
- External AC power indicator
- Filtered and regulated DC output
- Short circuit protection
- Modular options
- Auto Sensing AC Input (90-250 VAC)
- Electrical outlet built-in enclosure (110 VAC)
- Fire panel interface with switching output
- Field selectable voltage 12VDC-5AMP or 24VDC-3AMP
- Jumper selectable auto or manual reset on PDD-FT model only
- Low battery monitor and AC fail output relay
- Drop down lid can be used for a work surface
- "End of line" resistor supervision on fire interface
- Selectable ground fault detection on fire interface
- Multi panel interconnect-fire disconnect
- Limited Lifetime Warranty

RF55105PDDFT

Fire label electric strike

Features
- 1-1/4" x 4-7/8" (31.8mm x 123.8mm)
- Use with narrowline cylindrical or centerline mortise locks and mortise exit devices
- For aluminum frames
- Fire-labeled
- UL 10C (1-1/2 hr.)
- 12 or 24VAC/DC
- Accommodates 3/4" latch projection
- Non-handed
- Stainless steel faceplate
- Modular design
- Deadlocking ensured
- 3-year Limited warranty

RF55F410432 (12V AC/DC)

RF55F411408 (24V AC/DC)

Electric strike for exit device

Features
- Accommodates various rim exit device with Pullman latch projections (from 1/2" to 3/4")
- The 1-5/8" deep electrical insert* may be horizontally adjusted after final installation to correct door misalignments without altering the original faceplate location
- AC or DC input acceptable to all models
- Fully reversible for left or right-hand doors
- Brushed Stainless Steel finish
- * A minimum frame depth of 1-5/8" for surface-mounted installations

RF5516105 • 12V

RF551610828 • 24V

All RCI products are cUL rated

RCI ®

RUTHERFORD CONTROLS

Electromagnetic Locks

Features
• Brushed Anodized Aluminum
• Adjustable keyhole mounting bracket
• Built-in time delay (instant release with adjustable relock, programmable from 0-110 seconds)
• Field selectable voltage – 12/24VDC
• Convenient plug-in wiring terminals
• Easy-access wiring cavity
• MOV surge protection
• No residual magnetism
• Low energy consumption
• Hardened steel armature nut
• Self-drilling tek™ fasteners

  RF558310

  RF558310DSS
  DSS • Door Status Sensor

  RF558310SCS

  SCS • Security Condition Sensor

These hard-working multi-purpose electromagnetic locks enhance building security and install quickly. Several standard features make these magnets the "workhorse" of the industry.
The adjustable mounting bracket has been enhanced with keyhole mounting to support the magnet's weight during initial installation, freeing the installer's hands to affix the magnet mounting screws. The removable cavity cover offers quick, easy access to wiring.

Delayed egress with external sounder

Features
• All-in-One delayed egress system
• Built in "sensor" detects when pressure is applied to outward swinging doors
• 15 second release delay with field selectable 0 to 3 second nuisance delay
• Unique highly visible "Red/Green" light panel indicates status of door
• Available with built-in sounder, voice and CCTV monitoring combinations
• Camera comes with BNC and RCA video outputs
• Includes 960 Keyswitch for reset and override, 15 second Building Code Sign; base unit includes external sounder
• Built-in Security Condition Sensor (SCS) feature indicates that the door is closed and bonded
• Dry contact SPDT and DPDT relays provided for local and/or remote monitoring
• Auto sensing voltage from 12 to 30 VDC
• Up to 1200lbs (540kg) holding force
• Standard MultiMag® features included

  RF55DE8310

Dimensions For Single Outswinging perimeter doors
Base: 2-1/8"D x 2-7/8"H x 10-13/16"L (54mm x 73mm x 275mm)
Sound/Voice: 2-1/8"D x 2-7/8"H x 11-3/4"L (54mm x 73mm x 299mm)
Camera/Voice: 2-1/8"D x 2-7/8"H x 14"L (54mm x 73mm x 355mm)
Camera/Sounder: 2-1/8"D x 2-7/8"H x 14"L (54mm x 73mm x 355mm)
Includes 1/4" (6mm) mounting bracket

Battery Powered Cabinet Lock with Access Control

Features
• Ideal for cabinets, drawer, carts and other enclosures where power is not available
• 180lbs (82kgs) holding force
• Integral battery • up to 3 years or 350,000 operations between battery changes
• Low Battery warning LED remains for 50,000 operations
• iButton® key access control (up to160 Users)
• Simplified key management makes programming easy
• 6V cell alkaline battery
• Fail locked

RF553511

All-in-One Illuminated Pushbutton

Features
• Large 2" square illuminated pushbutton
• Available in long life incandescent (972-i) or LED (972-L) bulbs (Specify when ordering)
• SPDT 10 Amp Contacts
• 12 and 24 VDC bulbs included
• Includes 2 messages and a handicap symbol (in English and Spanish or French)
• Includes 3 coloured lenses (Green, Red, Clear)
• Push To Exit, Exit messages and Handicap Symbol included

RF34972IEFMO

Label Printer & Replacement Cartridges

RHINO
DYMO®

Features
- Text hot keys (over 100 pre-programmed components and 50 locations) speed you through frequently-used locations and equipment
- Large library of symbols for common audio/video, home entertainment, voice/data and other uses
- Flag key prints two-sided labels for cables and wires with a single touch
- Fixed length key automatically centers and prints to your specs
- Prints up to two lines in four font sizes – horizontally and vertically
- Prints italics, underline and boxed text
- Large, backlit 13-character display

RN55RH3000

Features
- Over 250 easy-to-find, pre-programmed industry terms and symbols for saving time and standardizing labeling jobs.
- Stores 1000+ custom labels, including industry terms, graphics, logos and symbols, for on-demand printing at worksites.
- Intuitive graphical interface lets you create, edit and preview multiple labels on our largest backlit LCD display
- Quick-charge lithium-ion rechargeable battery and on-screen battery life indicator ensures your RHINO 6000 is ready when you are
- Accepts 1/4", 3/8", 1/2", 3/4" and 1" RHINO labels
- Works with Rhino Connect™ Software (sold separately) to provide PC connectivity
- Combined with Rhino Connect™ software, you can:
  - Upload / download label files for in-the field and on-demand printing
  - Insert customized graphics, logos, symbols and industry terms
  - Import data from any Windows®-based program
  - Create labels using the integrated step-by-step wizard
  - Print labels directly from Rhino Connect™ Software

RN55RH6000

Features
- Advanced wrap function automatically selects the right label size and the largest text size, based on cable size or wire gauge
- Quick-Access Symbols key for common datacomm and electrical symbols, including: ohm, ground, phone, data and fax
- Separate Save and Recall buttons save time
- Fixed length key automatically centers and prints to your specs
- Prints five text sizes
- Large, backlit 13-character display
- Battery life indicator
- Automatic shut-off extends battery life

RN55RH5000

Features
- Large window for easy writing and viewing
- Integrated belt clip and lanyard hook makes it accessible at all times
- Built-in cutter allows for simple, one-handed operation
- Includes Sharpie® retractable fine point permanent marker – no cap to remove or lose
- Ergonomic design is compact and lightweight
- Prints on ¾" wide self-laminating vinyl and continuous flexible nylon (described bellow)

RN55RH101

SL Self-Laminating Vinyl 3/4 x 1.5

Specially formulated for dependable performance on wire and cable. With a large white write-on area that accepts permanent marker, it provides additional protection with a clear tail that wraps around and laminates over your handwritten text. Resistant to abrasion, chemicals and moisture, these die-cut labels allow for easy peeling from the liner.
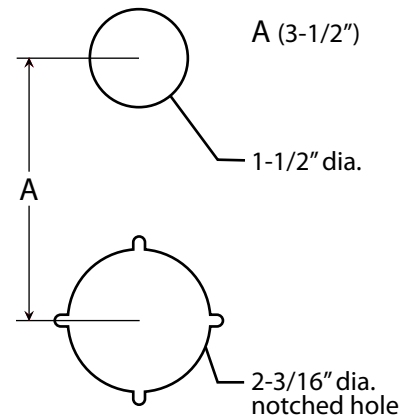

RN55101SL

Continous Flexible Nylon 3/4"

Designed to adhere to a variety of surfaces (smooth, curved, textured and highly textured). With a large white continuous write-on area that accepts permanent marker, this versatile material is resistant to heat, solvents, UV and moisture. Features an easy-to-peel split-back liner

* Output voltage adjustable with potentiometer to compensate for voltage drop (12.0~15.1VDC)

c(UL)
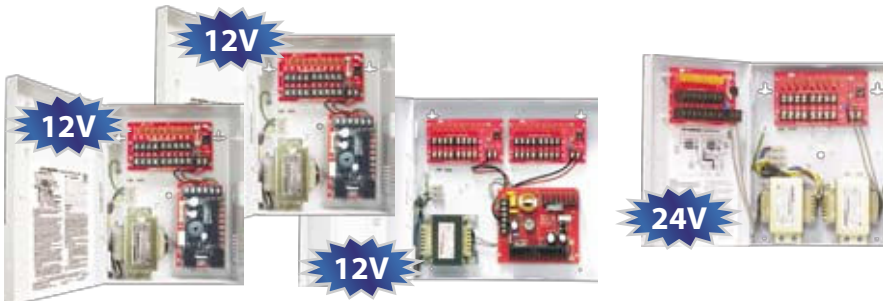

Features
• Each output individually fused (PTC**-type fuses)
• Output fuses rated 1.1 Amps @ 250VAC
• Individual red status indicator LED for each output
• Main power switch to turn on/off power to outputs

Power
• 110VAC, 60Hz
• UL-approved power transformer
• Main fuse rated 5.0 Amps @ 250VAC
• Spare fuse included
• 6-foot power cord included

Enclosure
• Heavy-duty steel case to protect the power connections
• Removable steel cover for easy access to power connections
• Ventilation holes to prevent heat build-up
• Knock-out on the cover for optional cam lock
• AC terminal block for easy connection from transformer to 6-foot power cord

0.5A Power Supply

Save Space On Your Power Strip with a New Horizontal Plug

Features
• 6-foot cord with 2.1mm plug
• Low power consumption
• Regulated at 0.5 A
• Stabalized 12VDC output
• Universal 110VAC input

SL55STUV12S05Q

2.0A Power Supply

Features
• 6-foot cord with 2.1mm plug
• Low power consumption
• Regulated at 2.0 A
• Stabalized 12VDC output
• Universal 110VAC input

SL55STUV12S20Q

ENFORCER® Electric Deadbolt

Features
• Fail-safe operation (unlocks if power is lost)
• Door open/close monitor (NO/C/NC)
• Adjustable door lock delay timer (0, 2.5, 5, or 9 seconds)
• Control wire allows release without cutting units power
• Power . 12VDC, 900mA on activation, 360mA on standby

SL55SD997B

80 lb Mini Electromagnetic Lock

Features
• Miniature Size: 2 3/4 " x ¾ " x 1 "
• For spaces where small size is required
• Dual voltage: 12 or 24 VDC
• No residual magnetism
• Detachable mounting bracket
• MOV surge protection
• Mounting hardware included

SL55E94180

600 lb Electromagnetic Lock

Features
• 600 lb. of holding force
• 12 or 24VDC (selectable)
• No residual magnetism
• Adjustable mounting bracket
• Complete mounting hardware for typical installations.
• "L" bracket and "Z" brackets available for easy mounting
• Detachable faceplate

SL55E941600

1200 lb Electromagnetic Lock

Features
• 1200lb. of holding force
• 12 or 24VDC (selectable)
• No residual magnetism
• Adjustable mounting bracket
• Complete mounting hardware for typical installations
• "L" bracket and "Z" brackets available for easy mounting
• Detachable faceplate

SL55E9411200

SECO-LARM®

Power supply

Features
• Switch selectable DC voltage output.
• Regulated and filtered output voltage.
• Short circuit protection.
• Thermal protection and compensation.
• Built-in backup battery charger.
• Switches to backup battery automatically in case of power loss.
• Fused protection for battery charger.
• 2 LEDs to indicate AC power input and DC power output status.
• Compatible with lead acid or gel-type rechargeable battery.

The **ENFORCER** "No Touch"

Features
• Voltage 12VDC
• Current Draw 40mA @ 12VDC
• Form "C" Relay NO/NC/COM
• Switching capacity 3A@24VDC
• Response Time 10mS
• LEDs Standby Green Red
• Output Time 0.5 Sec. or as long as unit is triggered
• Detection up to 4" (10cm)

SL55SD927PKC

ENFORCERtm Key Pad

Backlit keyboard

SL55SK1011SQ   SL55SK1131SQ

Features
• Duress output after multiple unsuccessful attempts to key in code
• Door-forced-open or propped-open after the programmed open time, Keypad beeps continuously
• Can trigger an optional alarm control panel
• Program to relock an open door when the programmed relock time expires or immediately after the door is closed
• 3 Outputs: main relay, aux. relay, transistor ground output
• Code lockout after multiple unsuccessful attempts to key in the code
• Stainless-steel face
• Relay output inhibit control (programmable)
• Power -- 12/24 VAC/VDC

Photobeam Detectors

Features
• Twin infrared beams provide reliable perimeter security, minimizing false alarms from falling leaves, birds, etc.
• Lensed optics reinforce beam strength & provide excellent immunity to false alarms due to rain, snow, mist, etc.
• Weatherproof, sunlight-filtering case for indoor & outdoor use
• Anti-frost system so that beam functions even in extreme conditions
• Automatic input power filtering with special noise rejection circuitry
• N.C./N.O. alarm output
• N.C. tamper circuit included
• Non-polarized power inputs
• Interruption time adjustable for nearly all situations

SL55E960D90
90 ft. (30m) outdoors, 90 ft. (60m) indoors
SL55E960D190
190 ft. (60m) outdoors, 390 ft. (120m) indoors

Dummy IR Camera

For detering crime at home, in an office, a parking lot, and around playgrounds.
IR LEDs turn on automatically in the dark and turn off in light. Requires optional power adapter for LEDs.

SL55VD10PL

5-in-1 Multi-Purpose Tester

Features
• Selectable 500mA or 1A load
• DC jack input
• LEDs indicate test results.
• Tests: voltage, battery load, voltage drop, polarity, PTC fuse
• Voltage: 5 ~ 12 VDC
• Max Charge: 0.5 / 1 A (switch selectable)
• Passive

SL55STBT01Q

Entry Alert® Chime

SF55RC3260

Features
• Quick and easy to install, no wiring needed
• 6VDC alkaline battery included

Wireless Chime - Doorbell button

SF55RC3250

Features
• Wireless musical entrance chime.
• 32 individual privacy codes to protect against outside interference.
• Two 3-volt lithium batteries included.
• Operates up to 250 feet

Bopper Stopper®

SF556522

Features
• Protects against vandalism and accidental damage
• Cover is UV-stabilized
• Smaller version of the original Bopper Stopper, yet offers the same excellent protection
• Cover is molded from thick polycarbonate

Steel Web Stopper®, Flush Mount

For Mini Smoke Detectors
SF559604

For low Profile Smoke Detectors
SF559601

Features
• Fast and easy installation
• Simple removal for servicing detector

Exit Stopper® Multifunction Door Alarm

SF556400

Features
• Highly visible "stop sign" design acts as a deterrent
• Sounds a powerful 105 dB warning horn when activated
• In exit alarm mode, can be set to sound for 10 beeps, 30 seconds, 3 minutes or indefinitely (unless disarmed with key supplied or until battery is drained)
• Unit is completely self-contained

Fire Extinguisher Theft Stopper®

SF556200

Features
• Highly visible "stop sign" design discourages wrongful use of extinguisher.
• Sounds a powerful 105 dB warning horn when activated
• Mounts easily next to extinguisher.
• Remote powered 12 VDC model available for special applications (STI-6200R).
• Deactivation cable provided for service by authorized personnel.

Clock/Bell Damage Stopper®

SF559631

Dimension
• Measures 10.5" diameter by 6" deep.

Motion Detector Damage Stopper®

SF559620

Dimension
• Measures 6.25" x 4.0" x 2.25"

Stopper® II without Horn Flush Mount

SF551200R

Features
• STI-1200 is for flush mount pull stations (Surface - see STI-1230)
• UL Listed to U.S. and Canadian safety standards (for standard and custom labeling)
• Polycarbonate rated -40ºF to 120ºF (-40ºC to 49ºC).

Wireless Driveway Monitor

SF5533372

Features
• Alerts you when a vehicle is coming up your driveway
• Sensor is solar powered
• Receiver plugs into a standard electrical outlet (indoor use only)
• Operates with a maximum of 1000 feet between sensor and receiver
• When a vehicle activates receiver, there is a five second delay for the unit to reset before the next vehicle will be detected
• Can be set to low or high sensitivity level
• Wireless frequency is 433.8 Mhz

Motion Detector Damage Stopper®

SF559622

Dimension
• Measures 8.75" x 4.0" x 3.75"

Motion Detector Damage Stopper®

SF559619

Features
• Corner Mount

			110	N/A	N/A	212 mA	210 mA
			115	N/A	N/A	218 mA	218 mA

* Horn/Strobe current draws assume the horn is set at temporal-3, high audibility.

Add Suffix '-B' for Bilingual text, '-F' for French text, '-P' for plain   'K' models are weatherproof

2012JA Photoelectric Smoke Detector

System Sensor's Model 2012JA Photoelectric smoke detector is ideal for use on security systems. A normally open alarm contact is provided for monitoring and up to 24 units can be interconnected.

Model No.	Loop Type	Alarm Contact Type	Operating Voltage	Alarm Current
2012JA	4-wire	Form A Normally Open	12 VDC	20 mA

5600 Series Mechanical Heat Detectors

The 5600 Series mechanical heat detectors offer a low-cost means to protect property against fire and for non-life-safety installations where smoke detectors are inappropriate. To accommodate a broad range of applications, the 5600 Series units are available in a full line of configurations. Single- and dual-circuit models are available with low or high temperature ratings and with fixed temperature or combination fixed temperature/rate-of-rise (ROR) activation.

Single Circuit	Dual Circuit	Identification Method on Exterior	Temperature Rating	Activation Method	Protected Spacing
5601A	5621A	None	135°F (57°C)	Fixed/Rate-of-rise	50 feet by 50 feet
5602A	5622A	Ring	194°F (90°C)	Fixed/Rate-of-rise	50 feet by 50 feet
5603A	5623A	Dot	135°F (57°C)	Fixed temperature	25 feet by 25 feet
5604A	5624A	Ring/Dot	194°F (90°C)	Fixed temperature	25 feet by 25 feet

CO1224A Carbon Monoxide Detector

The CO1224A detector is the industry's first carbon monoxide detector specifically designed for system connection. It is designed to maximize profits and minimize installation costs with code compliant features such as a trouble relay that sends a sensor failure or end-of-life signal to the control panel, and SEMS type terminal Philips-head screws that provide a quick and positive wiring connection while facilitating wiring supervision. The CO1224A unit also features a low current draw, which allows more detectors to be connected to the panel without having to purchase a more expensive panel or extra power supply.

Model No.	Detection Type	Wiring	Operating Voltage	Max. Standby Current	Max. Alarm Current
CO1224A	Electrochemical	4-wire	12/24 VDC	20mA	40mA

TANE ALARM PRODUCTS

"We Contact The World"®

Tane Alarm has been offering UL contacts Since 1987. Our contacts are produced in our own factory using highest quality reed switches & magnets insuring the best gaps possible. Tane contacts are UL, CE and RoHs Compliant

Uplink™

A *Numerex* Security Solution

Uplink AnyNET GSM Wireless Alarm Communicator

Features
- Real-time signal delivery in contact ID and SIA formats
- Maximum GSM network coverage in North America
- Fast installation with automated activation
- No on-site programming required
- Automated testing with LED indicators
- Compact and lightweight

- 4 inputs / 2 outputs
- Additional notifications can be sent by email and text message

UP55DIGIANY

Full Data Dial Capture Module for AnyNET

Features
- Works with the Uplink AnyNET to provide full data reporting from any contact ID or SIA–DC–03 reporting alarm panel
- Small, compact unit
- Quick and easy installation
- Redundancy and reliability through Four independent hard–wired zones

- Built-in telephone line monitoring circuit
- Supervised cable connection from the alarm panel
- Modular input and output telco jacks

UP55FD1000

Full Data Wireless Alarm Communicator

Features
- Full alarm/event reporting
- Primary communications
- Perfect for residential and commercial alarm systems
- Meets ul standards for residential burglary and fire
- Real-time signal delivery in contact ID and SIA formats

- Maximum GSM network coverage in North America
- Fast installation with automated activation

UP552550ETL

CDMA Communicator

Features
- CDMA technology for areas without GSM coverage
- Full alarm/event reporting
- Primary or back up communications
- Perfect for residential and commercial alarm systems
- Fast and easy installation

- Web management – secure dealer portal
- Easy installation – no programming required

UP552540

Gain Antenna

Features
- 3-3/4 inch long
- Magnetic base
- 36" wire

- Maximum gain 5 dB
- For DIGIANY

Enterphone Axess

The Enterphone Axess combines rugged design, heavy gauge steel construction and special epoxy coating to create a highly vandal resistant product. A fully-sealed, weather-resistant panel makes the Enterphone Axess an excellent choice for a wide variety of interior and exterior applications.

Key features
• Standard 1000 user capacity
• Personalized security codes for keyless entry
• Integrated 150-name directory
• Non-volatile eeprom memory
• Touch tone or rotary phone compatible
• Remotely programmable
• Built-in postal lock switch
• «In use» light (LED)
• Adjustable volume control
• Up to 16 units on one phone line

Security features
• Muted tones during dialing
• Blocks DTMF tones through microphone once voice path established
• «3 Strikes you're out» feature for tenant security codes and programming codes

Specifications
Dimensions: 12.5"w x 16.5"h x 2.7"d
Flush Mount Kit: 14.5"w x 18.5"h (Allow 13" x 17" for mounting)
Power Supply: Class II Transformer 16VAC 20VA

VC5550190001

Enterphone Solo

The Enterphone Solo comes with built-in call waiting to allow you to answer the door and return to an outside call. A second door station release can also be connected to the control unit if desired. If someone knocks at the door, instead of pressing the button, you can still communicate by picking up any phone and calling into the door station.

Whole house paging using the Enterphone Solo's second door station port can expand the system to include paging functions. For example, a station mounted in the kitchen can be used to page the phones in other rooms. Up to four stations can be mounted throughout the house to be used this way.

VC55421500

Relay Module for Solo

421-300 Relai
The 421-300 provides a dry contact closure by pressing "*" on any phone to operate door strikes, gate motors, or any electrical device requiring a trigger. One required for each door station.

VC55421300

Mesh™ EXP 24 Apartment Enterphone System

Features
• Accommodates DSL, Cellular, VOIP, and Cable Phone users
• Built-in Intercom Call Waiting
• Distinctive ring for intercom calls
• Does not require users to have regular phone service. A telephone connected to any telephone jack with/without phone service can receive intercom calls
• Does not require rental of a telephone line by management and there are no message unit charges
• Integrated DSL filter
• Accepts any DTMF telephone based input
• Up to 16 panels or guard stations per system

The kit includes
Distribution shelf: VC55503124
Axess panel: VC5520190001
Phone link cables (x2): VC55PB1034A15

No Phone Bill System

WINLAND™
ENVIRONMENTAL SECURITY ®

Environmental Monitoring – 8 zones

Features
- Simultaneously monitors up to 8 zones (4 hard wired and 4 wireless)
- Data logging transferable via USB memory stick
  - Event and Alarm History
- Monitor for temperature, humidity, water presence, power failure
- Alarm time delay up to 120 minutes
- 8 zone-specific relays with 1 auxiliary relay
- On-board piezo buzzer

WI55EA800

Environmental Monitoring – 2 or 4 zones

Features
- Simultaneously monitors up to 2 (EA200) or 4 (EA400) zones
- Zone one has integrated temp sensor in console (EA200)
- Monitor for temperature, humidity, water presence
- Alarm time delay up to 120 minutes
- Eight event alarm memory with time and date
- 2 (EA200) or 4 (EA400) zone-specific relays with 1 auxiliary relay

WI55EA20012   WI55EA40012

Wireless Sensors (EA800)

for EA-200-12,
EA-400-12 or EA800

Powerless Operation for Controlled Climates

Features
- -34 to +54C economical temperature monitoring
- Single dry contact output
- Connect through N.O. dry contacts to alarm panel or transmitter
- No power required for operation

WI55TA1

Powerless Monitoring Solution

Features
- Plugs into any standard 110 VAC outlet
- Alarm delay of 3-8 minutes to avoid nuisance alarms
- 4.5 m signal cable connects to alarm panel, dialer or transmitter

WI55PS110

Powerless Operation for Controlled Climates

Features
- N.C. dry contacts at temperature above +4 C
- Small size for unobtrusive appearance
- No power required for operation

WI55TA40

Driveway Warning System

WI55VAL1

Features
- Activate alarms, doorbells, cameras when vehicle enters driveway
- Two auxiliary Form A relays
- Built-in audible alarm
- Six minute delay allows vehicle to leave without alarm activation
- Excellent for commercial drive-up windows or remote building sites
- Maximum cable run of 2,500' (762 m)
- Purchase complete system with 100' (30.48 m) cable (VAL-1) or purchase components individually

Powerbolt®

Powerbolt

Powerbolt provides the convenience of keyless door locks and entry systems for today's active lifestyle. The latest in electronic technology operates on just 4 AA batteries and permits access with your personalized code or a key.

Easy To Program
• You choose your own secret personal code consisting of 4 to 8 digits.
• Your secret personal code can be changed easily, as often as you desire.
• Weiser Lock Tip: Not all criminals are stupid - a four digit code used over years may become soiled. Once the 4 digits are obvious it only leaves a possible 24 combinations. Therefore Weiser Lock recommends a 6 - 8 digit code for further security. It is also recommended to change your code once a year.
• If 3 wrong codes are entered in a row a buzzer will sound for 15 seconds and the system shuts down to discourage further guessing.

SmartCode™

SMART CODE™

NO MORE WORRYING ABOUT KEYS! Upgrade to a more convenient, more controllable keyless entry deadbolt with SmartCode™. With your own personal code, you can enter your home with just a few simple pushes of a button and lock it with just one. You also get more control over who has access to your home. Just assign a temporary code to whoever needs one and delete it when you see fit. Now, you can totally eliminate the need for keys. SmartCode is easy to install, program and use and operates on 4 AA batteries. SmartCode complements any Weiser knob, lever or handleset.

Features
• Keyless entry deadbolt - the ultimate in convenience and security
• The only one touch locking motorized deadbolt
• Back-lit keypad for increased visibility
• Installs in minutes with just a screwdriver - no hard wiring required
• Includes SmartKey™ re-key technology
